Subject: 2022 Yearly Report Presentation for Commissioners Court
Attachments: 2022 Yearly Report.pdf

Mae Belle,

Could you place the following "CCEMS 2022 Report" on the Commissioners Court agenda for next week? No Action items will be needed, I will simply be presenting the report. Also, I will have hard copies to hand out to the Commissioners and the Judge. Thank you for all you do!

Very Respectfully,

J. Dustin Jenkins, DMin, MBA, LP

Message from the Director

2022 Review

We at Calhoun County EMS, are thankful to have such a wonderful county and workplace to call home. 2022 highlights the fact that working in EMS is not a typical job. As EMS practitioners, we experience things that many only see in the movies. And while it is a difficult profession, we know it is worth it because of the tremendous potential to make a difference in the lives of those we serve. 2022 has been another challenging year for emergency response at Calhoun County EMS. Coming out of COVID has given rise to multiple problems in EMS as a whole, from the transition to the new way we handle EMS calls to the pandemic of people leaving EMS.

In 2022 we focused on maintaining a culture of support and care for one another both mentally and physically to help them better serve the community. Calhoun County EMS is truly a place that cares for people, both in the county as a whole, and in our department. Our members continue to operate at the forefront of our field in all aspects of emergency medical care.

Our department responds to a wide variety of calls that are both complex and challenging. This requires specialized equipment and a large skill set which is developed through very specific and detailed training. The training our personnel receive and equipment they use are second to none. This is in large part due to the forethought and wisdom of the Calhoun County Commissioners Court. Their dedication to the citizens of this community is on display at Calhoun County EMS. Because of this, the citizens in our county can be assured that on their worst day, they will receive the best of care with Calhoun County EMS.

Respectfully,

J. Dustin Jenkins, DMIN, MBA, LP
EMS Director, Calhoun County, TX

Vision
People Serving People

Mission
To safeguard quality of life through serving with honesty, integrity, compassion, and excellence while providing high quality professional ambulance-based healthcare, ensuring equal access to life-support and transportation to definitive and/or specialized care for all people.

Values
Honor, Integrity, Compassion, Excellence

What's in the Numbers?

Run Stats

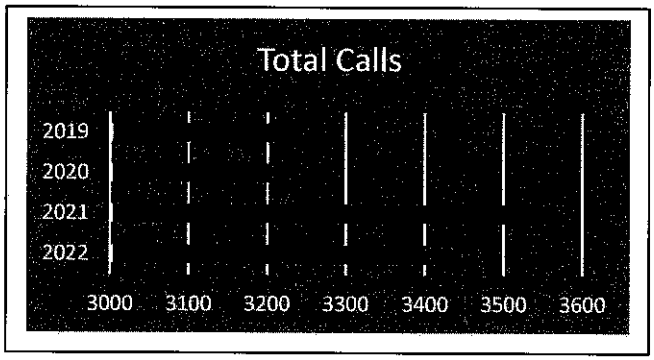
Records	Total
2019	3204
2020	3202
2021	3571
2022	3401

Transported	Total	%
2020	2022	63%
2021	2324	66%
2022	2271	67%

Public Service / Standby	
2020	65
2021	87
2022	73

The total number of calls for Emergency Medical Services has continued to increase over the past several years. In 2018, the total call volume was 2926 calls. 2021 saw a record number of 3571 calls for Calhoun EMS.

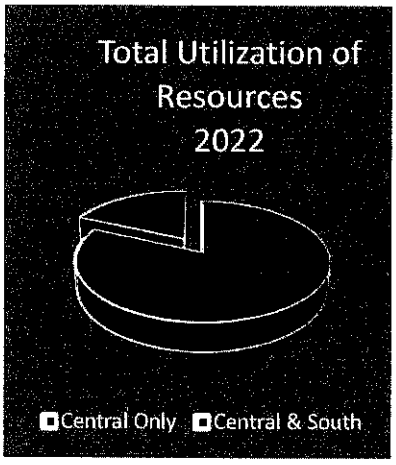
Statistics over the past couple of years have been difficult to trend due to the COVID-19 pandemic. The number of calls fluctuated greatly.



During the "lockdowns" EMS experienced a decrease in the number of calls. We suspect this was due to fewer people being out in the public and a fear of going to the hospitals.

Throughout 2021, these numbers increased as people were more active and the fear diminished. We saw a great increase in call volume as businesses opened up and life returned to a more normal pace.

Total Utilization of Resources



This report tracks when all of the service's ambulances are responding to 911 calls, at the same time. We track the number of times this happens, which stations are affected and when transfers from MMC are involved. Tracking this has allowed us to implement plans to mitigate delays in care to the community. One change is the use of off-duty personnel for long distance transfers when possible.

Total Utilization of Resources	
Central Only	40
Central & South	9

TUR Involving MMC Transfers	
All Transfers	32
Long Distance Transfer	21

Benchmarks

Department Average 2022		Benchmark
Response Time to 911	7:37	13 minutes
Chute Time	1:07	90 seconds
STEMI Scene Time	19:24	< 20 min.
Stroke Scene Time	17:18	< 20 min.
Trauma Scene Time	18:12	< 20 min.
Chest Pain-12 lead Time	7:00	< 10 min.
Transport NO	93%	80%

We utilize benchmarking to help ourselves improve performance and maintain a high standard of care for the community.

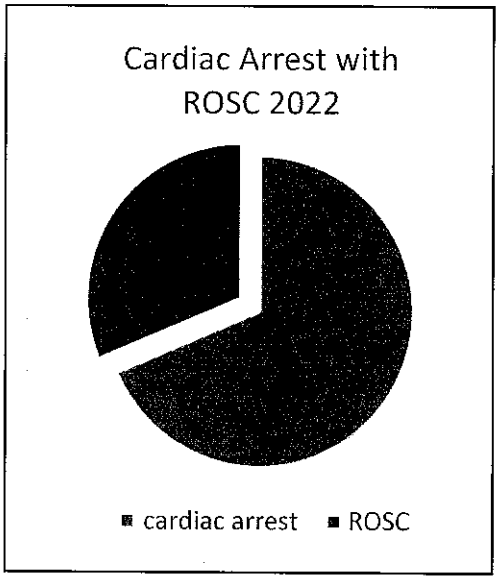
We have set goals for ourselves or we follow national standards. Every month, we strive to achieve or surpass these goals. The three shifts often compete with each other, trying to best the others. The chart above indicates Calhoun County EMS averages for the year of 2022. Each of these goals has been set in an attempt to maximize the care given to the community, while considering the safety of our crews and the public.

Timely responses and interventions are critical for the wellbeing of our patients, while also considering the safety of everyone during responses and transports.

Return of Spontaneous Circulation (ROSC)

ROSC occurs when a patient is successfully resuscitated following a cardiac arrest. The national average for achieving ROSC is approximately 29%. This number increases by up to 50% when CPR is performed prior to EMS arrival. Dispatch Directed CPR has been found to be effective in increasing the likelihood of CPR performance.

There remains a need for ongoing public education and training within our community.



Cardiac Arrest with bystander CPR	
2020	3 of 24
2021	3 of 25
2022	2 of 24

By Michael Werland

Financial Report

Management Summary

Every year, Emergicon, our billing company, prepares a management summary. This report includes: a 12 month look back, which details our charges and collections; a level of service summary, that gives us details about the types of calls billed; and time frame comparisons. Based on this summary, Emergicon provides Analysis and Recommendations going forward. These recommendations allow Calhoun County EMS the opportunity to better manage our fiscal responsibility to the citizens of this county.

SCT A0434	1.00	1.00

Analysis and Recommendations, Emergicon

While cash collections have decreased from 2021 to 2022, the total volume has also decreased. Further, from this comparison, we can see a decrease in commercial insurance and a spike in non-emergent transports along with a decrease in BLS-Emergent Transports. These two factors are the main culprits behind a cash per transport decrease from the previous year.

Currently, Calhoun County is utilizing all of Emergicon's best practices and recommendations. The fee schedule adopted in February 2020 is in line with current industry standards.

Refusals/TNTs/Non-Chargeable Activity

Calhoun County EMS conducted 2332 transports in the last calendar year that resulted in charges. During the last calendar year, there were 925 unbillable incidents. Of that, CCEMS had 806 non-chargeable incidents that, due to lack of transport and/or treatment, did not warrant charges. Patient refusals accounted for 36 of these unbillable incidents and other Non-Charegeable Activity for another 83. Refusals and non-chargeable activity make up 28.4% of your organization's EMS activity during the last 12 months. To put this into perspective, the current average non-chargeable activity rate across all Emergicon clients is around 32.08%.

NOTE: Your organization has an excellent transport to non-transport ratio.

EMERGICON
emergency medicine consultants

Cost Report

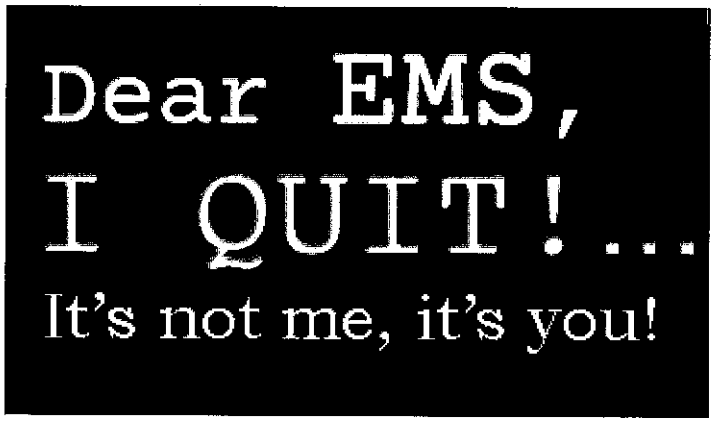
The Ambulance Supplemental Payment Cost Report provides approved governmental ambulance providers the opportunity to receive supplemental payments if the governmental ambulance provider's allowable costs exceed the fee-for-service revenues received during an applicable service period. This year, we received a TASPP payment totaling $130,013.68 based off of the 2021 cost report.

Total 2022 Revenue

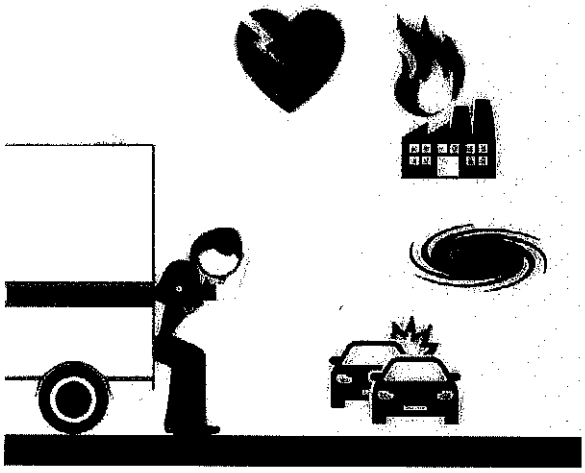
Cash Revenue:	$1,254,210.56
2021 TASPP Payment:	$130,013.68
Revenue:	**$1,384,224.24**

The Exodus of EMS

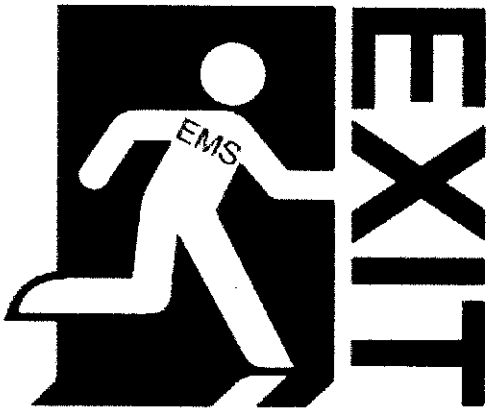
Over the past several years the EMS workforce has been steadily declining. During the height of the Covid-19 pandemic in 2021, the Texas Department of State Health Services reported that only 27% of licensed EMS providers had submitted a patient care report to the state office. What this means is that 73% of licensed EMS providers are working in other healthcare settings, such as hospitals and clinics, or choosing to not work in EMS at all.



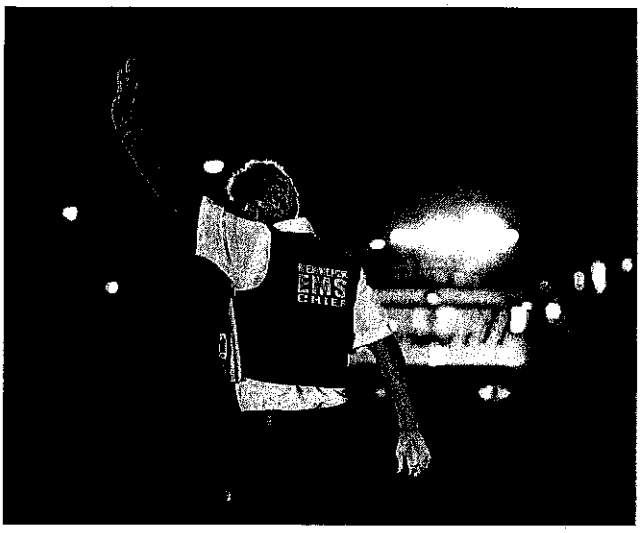
Calhoun County EMS recently attended a Job Fair and Skills day at Wharton County Junior College, where every other EMS agency was actively recruiting students directly out of the EMS program. Many services were offering sign-on bonuses and increased hourly rates to paramedic students who applied with their department or company pending the students successful graduation and licensure. Calhoun County EMS was the only department in attendance that was fully staffed on personnel and not actively recruiting at the WCJC Job Fair and Skills day.



The strain that Covid-19 put on the healthcare field was felt in many other fields, rather than just EMS. Hospitals began to rely on private nursing companies due to nursing shortages. These nursing contracts, in most cases, were double if not triple the hourly rate that a normal nurse would be paid. In an effort to minimize the amount of private nursing contracts that would need to be obtained, Hospitals began to hire Paramedics in the Emergency Departments and Intensive Care Units. Hospitals learned these paramedics were able to fill a role and perform specific skills that nurses were not licensed to perform, at a much lower cost than private nursing contracts. Paramedics moving from EMS roles to Hospital roles also noticed an increase in pay rate. Currently hospitals in TX Medical Center are recruiting paramedic positions at $30 an hour.



The National Association of Emergency Medical Technicians, or NAEMT, recently submitted their 2022 National Report on Engagement and Satisfaction in EMS. They predict that within the next 6 years we will see 47% of paramedics leave the job field, as well as, 41% of EMT-Basics. The 2 most reported reasons were for a better work-life balance and for more competitive pay. 27% of those Paramedics leaving plan to stay within the healthcare field, 36% of those plan to leave the healthcare field entirely, and another 37% were undecided on what to do next.



Currently at Calhoun County EMS we are one of the few, if not only, EMS departments in South Texas currently fully staffed. Due to the demand of Paramedics, many factors come in to play when a Paramedic chooses an employer. Calhoun County does an excellent job in taking care of their employees and first responders. However, with the increased demand on Paramedics, AEMTs and EMTs, and shortage of Paramedics entering the job field, it may be not much longer before we begin to feel the effects of the EMS shortage here in Calhoun County.

By Zachary Haring

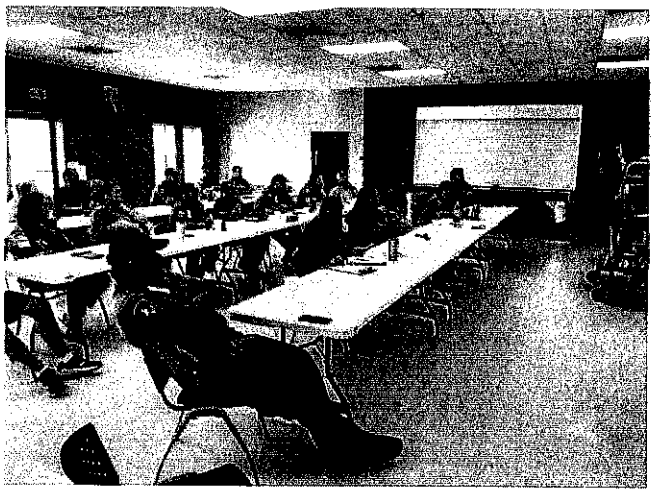
TRAINING AT CALHOUN COUNTY EMS

Science and medicine changes daily, and it becomes challenging to keep up with the most up-to-date medical practices and procedures. Our department is known throughout this region as being progressive and a leader in our field. At Calhoun County EMS, we continually research and improve/add to our protocols. Some of our more aggressive (life-saving) skills are not required often and need frequent practice to maintain for those times when needed most. Our training program is tasked with helping us meet these challenges head on.

Our current training program, Calhoun County Rural CE Program, has been a part of our department from the beginning. Starting out, there was one training officer that handled all of the department's training. Since our department has grown over the past few years to 29 full time positions, we have been able to utilize one individual from each shift to act as a Shift Training Officer. Our current Shift Training Officers are Beverlie Ables (A Shift), Denver Eichler (B Shift), and Zachary Haring (C Shift). Along with these training officers, we also have several other highly motivated individuals that assist with training whenever they are needed. All of these individuals have done an outstanding job providing training even through the challenges we faced through the COVID-19 pandemic.

Over the past four years, we have conducted over 550 hours of training. This number includes various American Heart Association (AHA) courses, regular department trainings, first responder training for our volunteer organizations, and various other trainings as well.

In 2021, we added Telecommunicator CPR (T-CPR), so that all dispatchers in the county were trained to identify patients who needed CPR and how to give instructions over the phone. This made it possible for cardiac arrest victims to receive bystander CPR as soon as possible, which can increase their chance of survival.



In 2022, we added two additional AHA courses: Advanced Cardiac Life Support (ACLS) and Pediatric Advanced Life Support (PALS). ACLS is a course that focuses on adult cardiac emergencies. This course is designed to build on the foundations of basic life support skills and then reinforce the proficiency of reading and interpreting ECGs, understanding ACLS pharmacology, and assessing and treating cardiac patients that are pre-arrest, arrest, or post

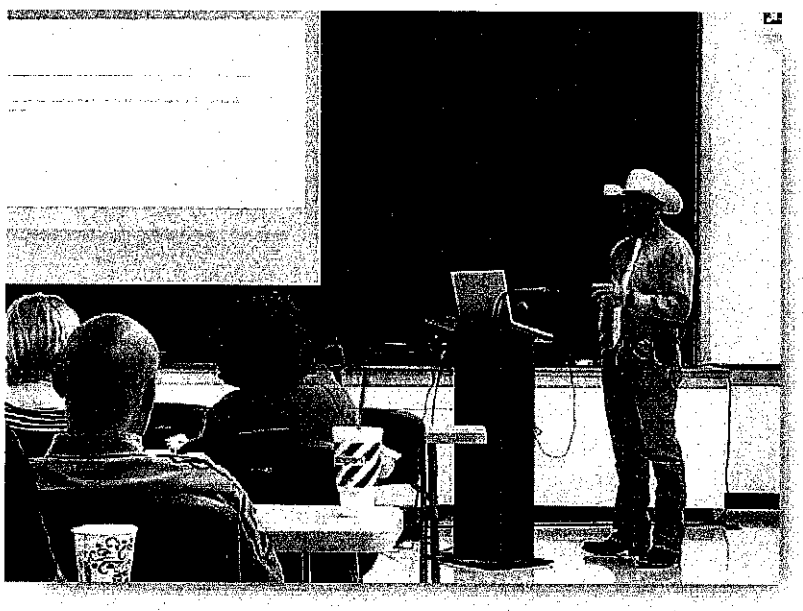
cardiac arrest. The PALS course is the pediatric equivalent to the ACLS course.

In 2023, through a collaboration with Magnolia Beach Volunteer Fire Department, all of our training officers are now National Association of Emergency Medical Technicians (NAEMT) PHTLS instructors. As PHTLS instructors, they can conduct Pre-hospital Trauma Life Support (PHTLS) classes. This course is designed to improve the quality of trauma care and decrease mortality. Over the next few months, all our Calhoun County EMS employees will go through this training.

Some training highlights of the past few years include:

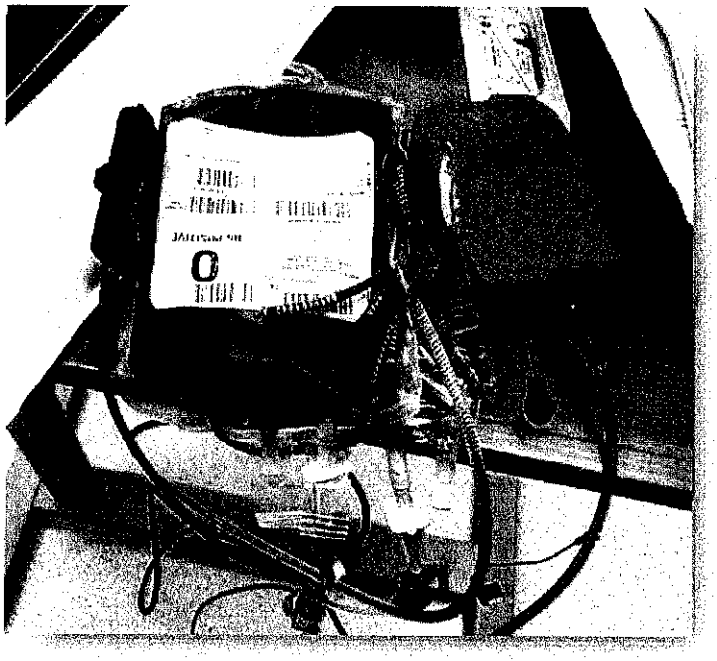
February 16, 2023, Airway & Ventilation Management training was conducted by Zachary Haring, EMT-Paramedic, EMS Instructor along with assistance from Denver Eichler, Licensed Paramedic, EMS Instructor. Since many of these skills cannot be "practiced" on a live patient, animal lungs were utilized to make training as real as possible. Attendees reviewed airway anatomy, basic ventilation skills, and advanced skills, such as, surgical airways and the application of a mechanical ventilator.

November 17 & 18, 2022, Focused Assessment with Sonography for Trauma (FAST) Ultrasound Class was conducted by Advanced Health Education Center for all paramedics. This course is designed to help our paramedics identify potential internal bleeding that is not visible to the eye in our trauma patients. This helps our crews identify patients that will require emergency surgery and gives them the ability to alert the receiving hospitals. Our department is one of the first in the area to utilize ultrasound technology. Our Medical Director, Dr. Paul Bunnell, also attended this training alongside our paramedics.



July 15, 2021, Crime Scene Preservation was the focus of Investigator James Tolar with the Calhoun County Sheriff's office. He focused on things that can be done to on scene to help law enforcement. He also included information on what could indicate a crime has been committed, and how to handle those situations safely. Investigator Tolar returned on July 20th to repeat the class to our county Volunteer EMS members as part of our monthly CE classes.

February 20, 2020, Whole Blood Administration training was conducted by Director Dustin Jenkins. This training helped prepare our crews to be able to administer low titer O positive whole blood to bleeding patients. This gave us the ability to give hemorrhaging patients back what they were losing—whole blood. The use of whole blood requires specific screening before, during, & after administration and the use of a special warmer to heat up the blood to the proper temperature before administration.



By Lori McDowell

Technology Report

Over the last few years, the technology at EMS has drastically evolved. The changes provide higher safety, accountability, and accuracy in our day-to-day operations. For example, the ambulances received an internet-connected camera system that offers administration real-time and archival footage from the vehicle regardless of location. The camera system views 360 degrees around the vehicle, the front, and the patient compartment. In addition, EMS added A cradle point internet modem to all ambulances to facilitate the camera system. The cradle point provides internet access to the network video recorder mounted on the ambulance and provides connectivity to the Toughbook for patient care report completion. The cradle point will support additional devices as EMS becomes a technology-driven industry. Medical ultrasound scanners provide insight into internal bleeding. The scans can be attached to the patient care report. The central station received a new IP-based camera system with 18 cameras covering the building's interior and exterior. The new radio system provides far better coverage of the county. The additional coverage ensures emergency communications can be maintained and overall safety improved. The day-to-day operations of the IT department focus on the maintenance of critical systems. On average, each ambulance has ten devices that require management and software updates. At the core of EMS is our server, which hosts file and printer shares, narcotic lock management, truck camera management, and multiple databases to support essential services. The central station hosts over 25 network-connected devices that support day-to-day operations. These devices must also be updated and maintained. Our PCR software receives nearly weekly patches. The South Station hosts approximately ten network-connected devices. In addition to the near-constant updates are minor issues inherent with all computer systems. The minor issues keep us busy throughout the day when not answering 911 calls.

Maintenance

Calhoun County EMS Maintenance Report – 2022

The Calhoun County EMS Maintenance Department continues to provide preventative maintenance on all CCEMS vehicles. The department is utilizing new tools to make jobs easier, providing education to make repairs more efficient, and enhancing ambulance safety for patients and EMS crews.

The CCEMS Maintenance Department continues to provide maintenance on all CCEMS vehicles to include, but not limited to oil changes, brake jobs, tire replacement, and most light maintenance as required. We also have continued to diagnose and repair Onan generators which are equipped on all CCEMS ambulances.

To make maintenance easier and more expedient, CCEMS maintenance has acquired some new equipment which includes a vehicle lift with the capacity to lift our ambulances, tire mounting and balancing machines, a large stationary air compressor for air jacks and air tools, a hydraulic press, and a variety of hand tools and diagnostic equipment.

The CCEMS Maintenance Department continues to train and expand on our knowledge and capabilities. We have continued to send members to school for generator training and look forward to expanding our knowledge into HVAC in the near future.

A goal of Calhoun County EMS is to make the back of the ambulance safer for both patients and EMS employees. We are actively working on securing medical equipment, diagnostic equipment and other medical supplies. CCEMS has acquired new LifeDefender cabinet security frames through Austin Hardware and Supply, Inc. These are being fitted on all CCEMS interior medical supply cabinets to ensure all supplies stay in the compartment in the event of a crash.

By Jason Warmuth

INFECTION CONTROL

Under the Texas Health and Safety Code EMS is required to have a Designated Infection Control Officer (DICO) and an alternate. This officer plays a vital part of our department. The DICO receives notifications of exposures of reportable diseases from hospitals, notifies the appropriate healthcare providers of potential exposures, acts as a liaison between our employees or volunteers and the destination hospital of the patient who was the source of potential exposure, investigate and evaluate the exposure incident and possible risks of communicable diseases, and monitors all follow-up treatment provided to the affected response employee or volunteer, in accordance with applicable federal, state, and local law. Our current DICO is Erika Rojas, Licensed Paramedic and the alternate DICO is Lori McDowell, Licensed Paramedic, EMS Coordinator. To effectively carry out the duties of this position, a close relationship and open communication with our Medical Director, Dr. Bunnell, is extremely important.

Over the years, we have utilized this role many times. It is not always known by everyone since the nature of this role is to handle potential health related data on employees that must remain confidential and compliant with federal HIPAA (Health Insurance Portability and Accountability Act) laws. We have had several employees with accidental needlesticks. In these instances, there is not always a source patient to draw blood from in order to test for infectious diseases. When this occurs, our DICO will contact Dr. Bunnell and explain the situation. If the source patient is known, he can evaluate their lab work, and when the source patient is not known, he can prescribe prophylactic medication and assist in the monitoring of the employee. As required by state, the DICO must also submit notification to the Health Department.

Other exposures that have occurred include tuberculosis and meningitis. Both of the illnesses pose respiratory hazards and require special personal protective equipment (PPE). As on scene providers, we are not always notified by the patient regarding their medical history, and crews are unknowingly exposed. Luckily, we have a good working relationship with area hospitals, and they can contact our DICO at any time and notify them of exposures. In these cases, employees and Dr. Bunnell will be contacted. Dr. Bunnell and the DICO will work together to formulate a plan of action for the exposure. Both of these illness require testing, possible prophylactic medications, and thorough monitoring and retesting at various intervals.

Until the COVID-19 pandemic began, many people did not realize how important having a Designated Infection Control Officer was. Many changes were made in Infection Control, and the way we operated changed forever. For years we had been trained to immediately go to a patient's side and begin treatment. During the pandemic our medics were required to evaluate circumstances, and ensure that they had on the proper protective equipment (PPE) before entering a residence to help a patient. This increased the time it took for us to reach our patients. Fortunately, our dispatchers played an active role in helping our crews be better prepared upon arrival. They were able to screen callers for symptoms that were associated with COVID-19 and inform the crews prior to arrival. Certain procedures could not be performed in the back of an ambulance because of the confined spaces and potential exposures. We were also faced with the challenges of having our units out of service because of wait times at the hospitals and decontamination of equipment that was required.

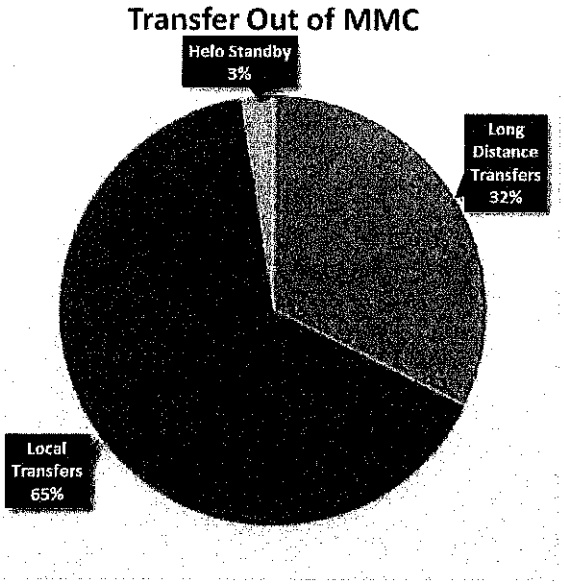
Throughout these changes, infection control played a huge part in the training and information sharing regarding best practices of EMS. Fortunately, as members of the Golden Crescent Regional Advisory Committee (GCRAC), we were able to acquire COVID-19 tests. Supervisors and Crew Leaders received training on the administration of these COVID tests. In the event an employee felt ill while on shift, the on duty Supervisor could test them immediately. If an employee was sick prior to shift, they could be tested and results were known immediately. By testing employees sooner, it prevented the spread of COVID among employees and to patients.

Since May 2022, cases of Mpox (aka Monkeypox) have been reported. Mpox causes fever, headaches, and various other symptoms including a horrible rash that is easily spread by direct contact or contact with objects and materials that a person with Mpox has used. Our DICOs, Erika Rojas and Lori McDowell, immediately began researching Mpox and creating infection control and treatment plans for possible Mpox patients and possible exposures. Training on Mpox was provided for all EMS employees and all Calhoun County EMS Volunteers.

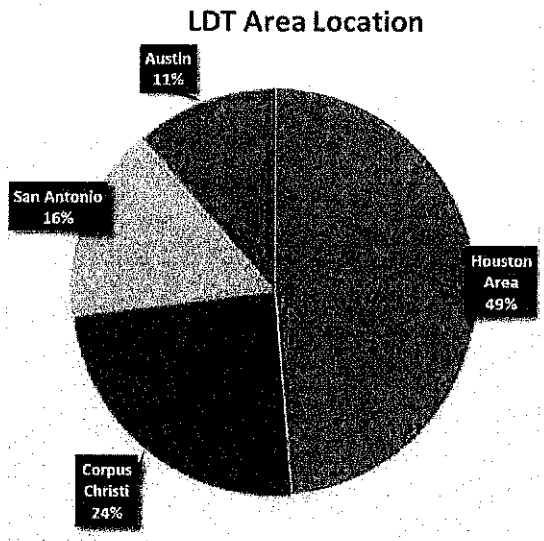
Infection Control will continue to be a vital part in our everyday operations. We will remain on alert for new infectious diseases or future pandemics to protect our employees, patients, and the citizens of Calhoun County.

By Erika Rojas

Transfer Statistics

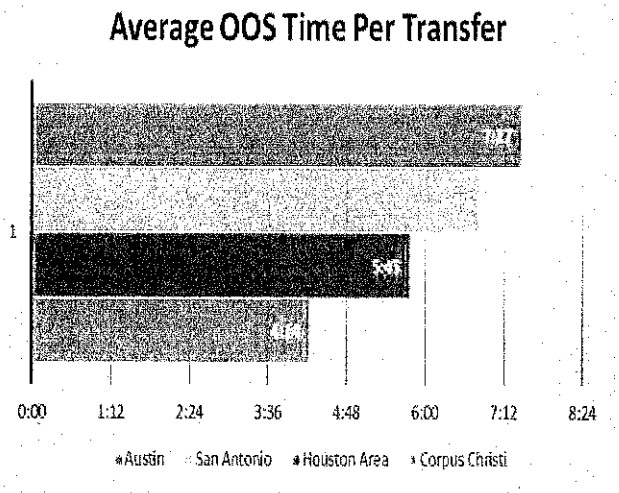


Calhoun County EMS and Memorial Medical Center have collaborated to address the issue of crew fatigue and the high volume of long-distance transfers originating from Memorial Medical Center Hospital. The partnership allows EMS to secure an off-duty, rested crew to perform the transfer, providing some relief from fatigue. However, it should be noted that the collaboration has not fully eliminated the need for on-duty crews to be utilized. Additionally, the number of transfers from Memorial Medical Center to local facilities, such as Victoria Hospitals, remains unchanged. Data indicates that approximately one third of transfers from Memorial Medical Center are being conducted in this manner. These numbers do not include those transfers completed by other Transfer EMS services such as Prestige EMS or City Ambulance Service which Memorial Medical Center also uses on a normal basis.



Local-298 Long Distance-148 Helo-12

Calhoun County EMS has received requests to transport to several facilities within its designated region of 200 miles. However, a few requests outside of the region, including McAllen, Waco, and Temple. The majority of transfers are directed to healthcare facilities in the Greater Houston Area, including those in Galveston.

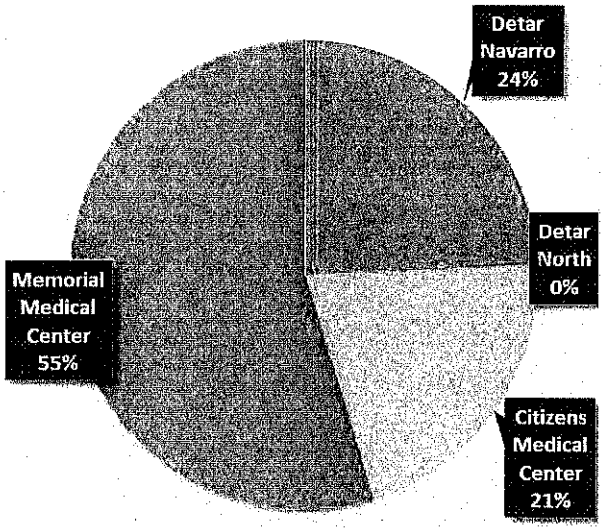


Austin-17 Houston-72 Corpus-36 SA-23

Calhoun County EMS dedicates a substantial amount of time to performing long-distance transfers. The graph illustrates the average time per transfer from patient pickup to unit availability for call, demonstrating that approximately 805 hours were spent on these transfers in 2021. This translates to a unit being unavailable for a continuous period of 33.5 days, impacting operational capacity. Additionally, the 40,000 miles driven during these transfers equates to a replacement of one ambulance every 2.5 years, assuming a standard useful mileage of 100,000 miles.

CCEMS 2022 Transport Statistics Continued

Transport By Destination 911 Response

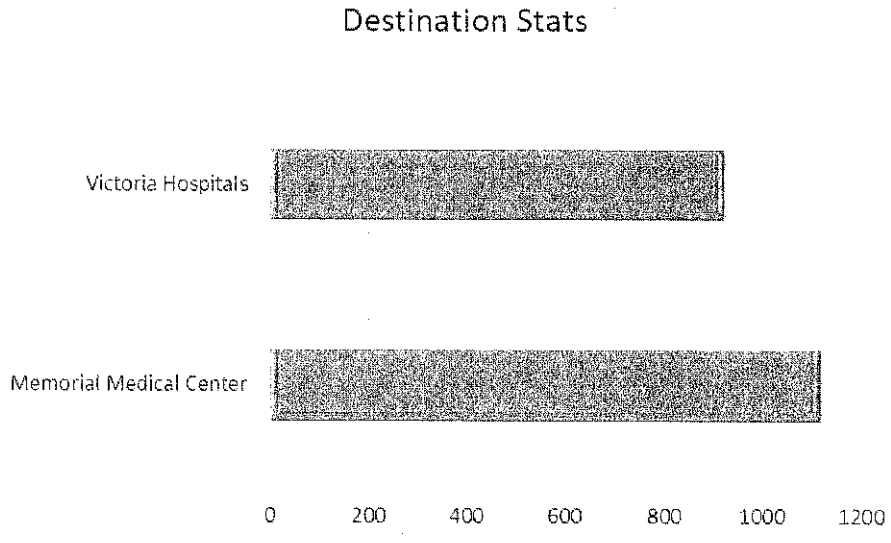


Calhoun County EMS regularly transports patients to local healthcare facilities including Detar Navarro, Detar North, Citizens Medical Center, and Memorial Medical Center. The destination decision is frequently based on the patient's request, but other considerations such as the availability of orthopedic, cardiac, gastroenterological, and trauma services also play a role. In above listed cases where Memorial Medical Center lacks the necessary capabilities, alternative destinations in Victoria must be utlized for the best interest of the patient.

MMC- 1118 Detar-488 Detar N.-5 CMC-430

This representation illustrates the distribution of transport destinations between Memorial Medical Center Emergency Room and emergency rooms in the Victoria area. Memorial Medical Center emergency room accounts for 55% of total EMS transports, while Emergency Rooms in the Victoria area account for 45%. It is important to note that this data only encompasses 911 calls and does not include transfers.

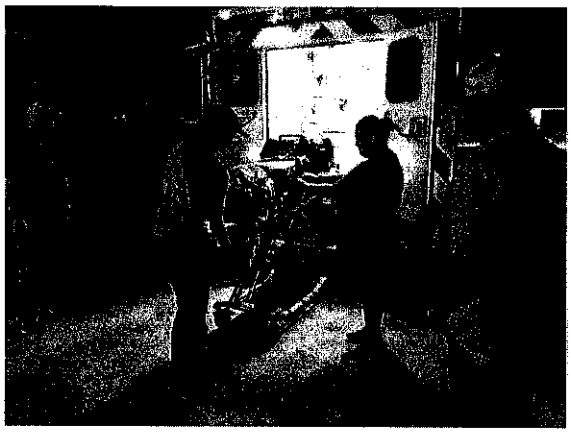
By Matthew Hinds



VOLUNTEER SPOTLIGHT

Magnolia Beach VFD and Calhoun County EMS have developed a close relationship, both in providing emergency patient care and in providing quality EMS education opportunities. This relationship greatly benefits both organizations, but more importantly, the residents we serve. Magnolia Beach VFD operates a 100% volunteer, fully equipped MICU-capable ambulance providing EMS services to the residents of Magnolia Beach, Alamo Beach, Indianola, Powderhorn, and all points in between. MBVFD also provided backup EMS coverage to CCEMS when they are at level zero availability or have a multiple casualty event.

Over the past year, we developed joint EMS training initiatives that benefit CCEMS employees, MBVFD members, and all fire volunteers within Calhoun County. We conducted an EMT class and trained twelve students from Port O'Connor VFD, Olivia/Port Alto VFD, Point Comfort VFD, and MBVFD. Sharing instructors and resources from CCEMS and MBVFD, we also successfully completed a Nationally recognized Prehospital Trauma Life Support (PHTLS) course for our County EMS and volunteer departments. Based on the success of these courses, we are moving forward with preparations to conduct more Nationally recognized NAEMT courses, including Advanced Medica Life Support (AMLS) and Emergency Pediatric Care (EPC), by year's end. Additionally, both CCEMS and MBVFD are DSHS Continuing Education Providers and work together to provide CE training to all EMS providers in the County. Our joint goal is to provide the citizens of Calhoun County with the best-trained EMS responders possible, whether paid or volunteer.

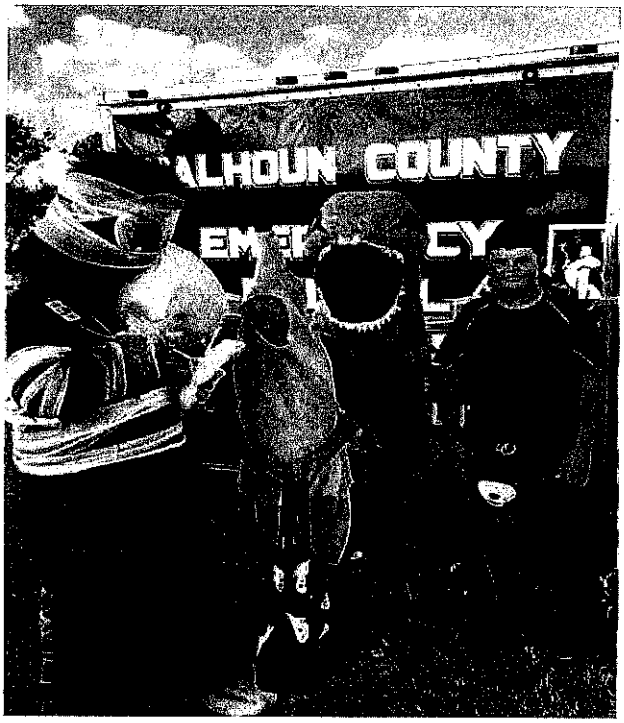


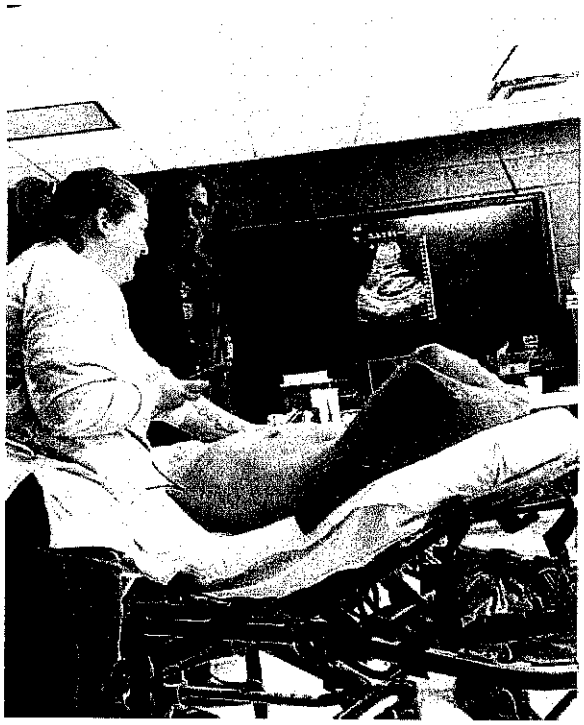
By John Mayne, EMT-A
Fire Chief MBVFD

SPECIAL EVENTS

CCEMS 2022

Calhoun County EMS strives to bring the best to the community it servers. Here are a few pictures of CCEMS at different special events that we participated in.



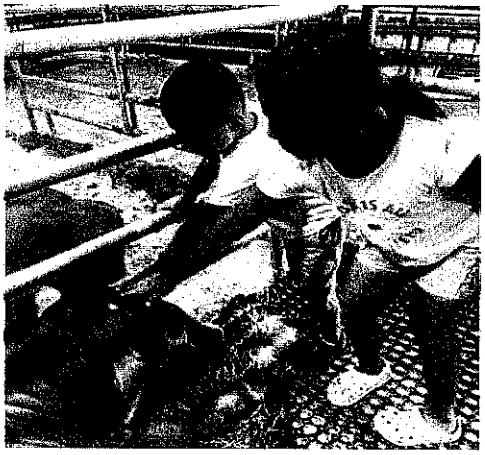


Top left and to the right Mummy Monkey Mike at the Mile Monster Mash. This event was put on to be able to provide a safe environment for the children to gather candy during Halloween.

Top right is CCEMS employees attending an in-service for the new ultra sound devices that were placed on the ambulance. CCEMS employees also became the patients as well. Thus allowing them to fully understand what our patients will be encountering.

Below, CCEMS medics enjoyed participating in a medical standby for the Port O'Connor PTO Run at POC Elementary School.

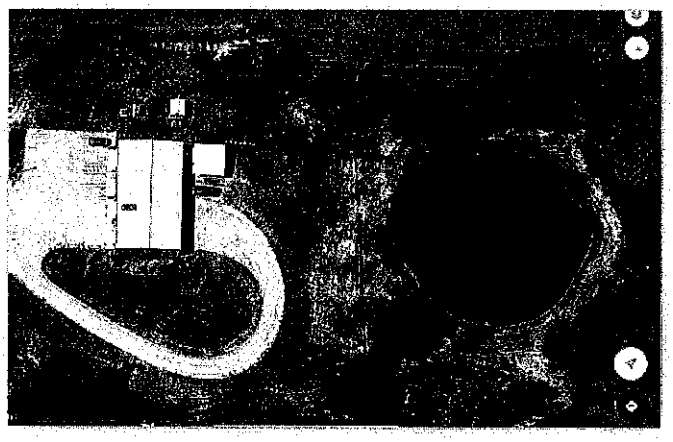
Bottom left, CCEMS Paramedic Denver Eichler stands with a few of the children from the Kids Fish Tournament in POC. Denver, being a fisherman himself, really appreciated helping these children during this stand by event.



Bottom right, the Calhoun County Youth Fair is a week long event. CCEMS employees spend time during this event helping children understand what it is we do during a medical emergencies.

Below are a few pictures of CCEMS joining efforts with Magnolia Beach Volunteer Fire Department to host educational events, such as PHI -Helicopter landing zone class and also providing Cardio Pulmonary Resuscitation (CPR) training to other first responders and public servants within Calhoun County. By Angie Gaona, EMT-P

SOUTH STATION



Calhoun County EMS responded to 417 calls from the South Station in 2022. Increased boating activity in the area led to responses to several boating accidents this year. South crews also responded to vehicle accidents and falls from heights resulting in major trauma. Patients had better outcomes due to the shortened response time from the South Station.

The South Station crews worked hand in hand with other agencies including PHI, United States Coast Guard and Texas Parks and Wildlife. The volunteer agencies such as Port O'Connor VFD and Seadrift VFD in the area have proven to be a great asset in the area.

A couple of improvement projects to the station were completed this year. A large sink was installed in the bay for washing and disinfesting gear and equipment. Floors were resurfaced inside the living area of the station on top of the painted concrete which made the living area look much more professional and easier to keep clean. The kitchen had a new range installed along with other small appliances. A water filtration system was installed in an attempt to improve water quality. A small building was constructed behind the station to store the lawn equipment needed to upkeep the property. There is a covered area on the side of that building for cooking out and spending time outside. Floor covering in the bay where the ambulances park is an ongoing project, as well as, plans for new and updated gym equipment.

The self-sustaining South Station has again proved itself a welcome and needed asset to the southern most areas in Calhoun County.

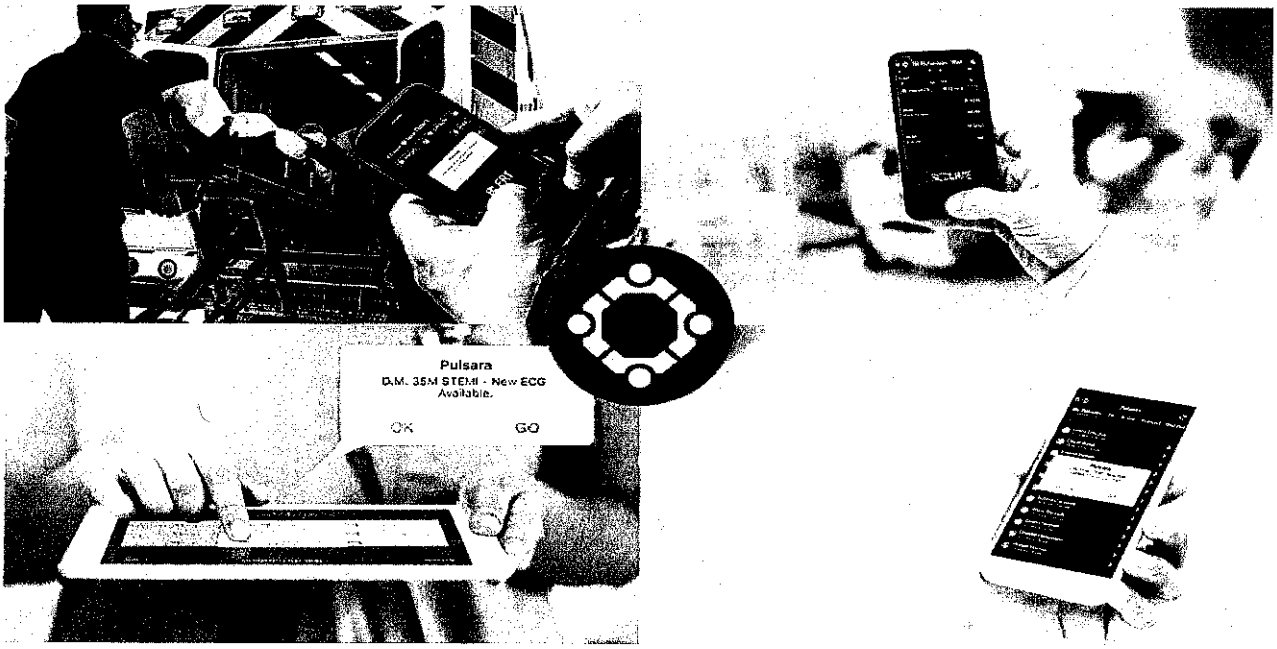
By Denver Eichler

NEW EQUIPMENT, TOOLS & TREATMENTS

Whole Blood Administration

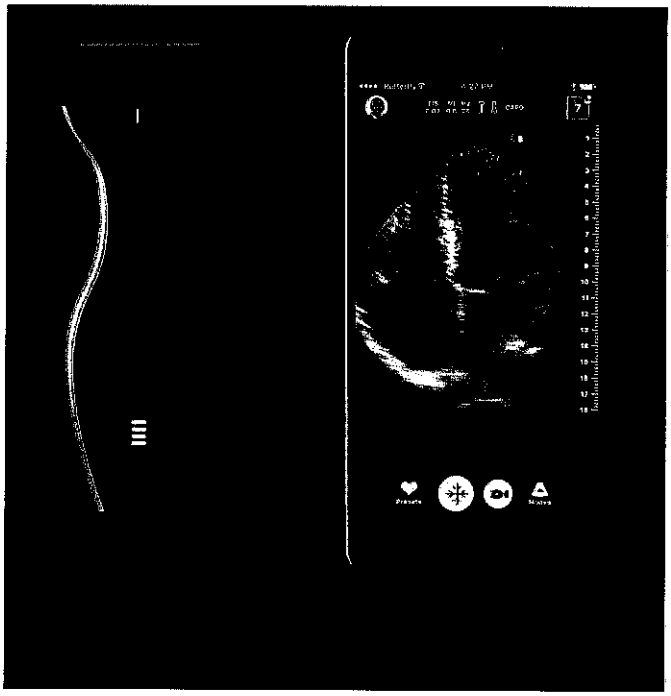
Whole blood administration in the EMS setting is rapidly becoming the new standard of care. As with many new treatments in medicine and especially in EMS this was researched in field military treatment. It has proven to be extremely beneficial for patients with low blood volume for trauma patients as well as medical patients. At Calhoun County EMS we have been on the cutting edge of field EMS treatment and have been providing field administration of whole blood since early 2020. Our field whole blood administration has seen year to year increases. In the last year (2022), CCEMS administered 6 units of whole blood. In the year 2023 (February) CCEMS has administered 3 units of whole blood. Each patient must meet specific criteria for whole blood administration. In just over three years CCEMS has used this treatment for 6 trauma calls, 11 gastrointestinal bleeds, and 3 calls of other natures. This treatment is not used often but has a profound impact on patient outcomes when it is necessary.

Pulsara

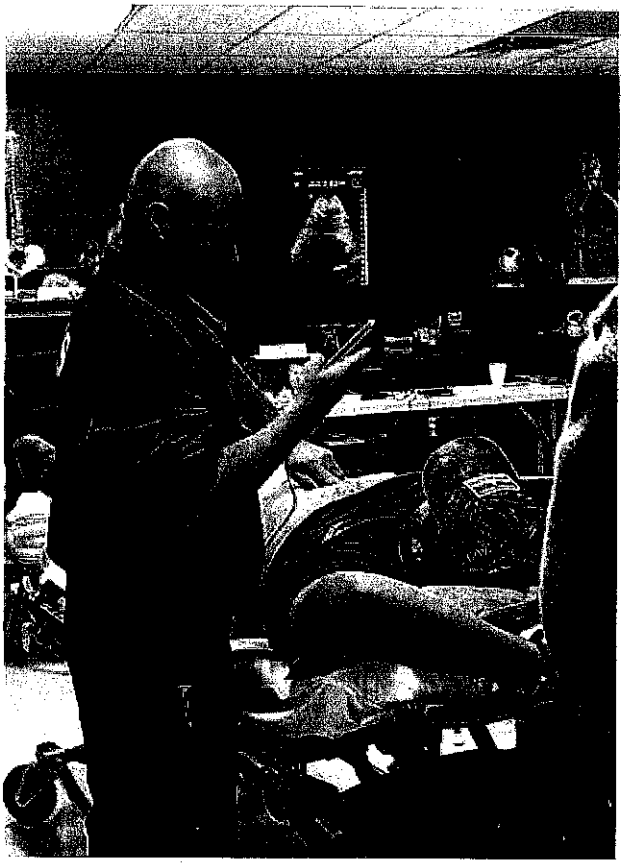


For many years EMS providers have made a simple and limiting phone call to receiving hospitals to report the patient's reason for calling EMS, patient condition, treatments, and estimated time of arrival at the hospital. This has all changed recently with the implementation of a new application. Pulsara is being used by EMS and hospital providers. The application allows EMS providers to instantly communicate with receiving hospitals as events occur in the ambulance. The process starts when EMS providers place a wristband on the patient with a tracking number which is scanned into the application. This number allows for all providers (EMS and hospital) to access the patient's entered information throughout the duration of treatment for the patient's current event. EMS then enters the patient's name, date of birth, vital signs, treatments, and estimated time of arrival (ETA) to the receiving hospital. This alerts the hospital of the arrival of the patient. The application allows EMS to send pictures, ECG's, messages by text or voice, and speak directly to the receiving facility by voice or video call. This allows EMS to have ongoing communication, in real time, with the hospital staff and physicians. Finally, this application allows EMS and hospital staff to see what further treatments were necessary as well as patient outcomes. This application has become a definite asset in communicating with receiving hospitals.

Butterfly Ultrasound



Another cutting edge piece of equipment and assessment tool carried by Calhoun County EMS are ultrasound units. These are not common in the pre-hospital setting but CCEMS has been using them for the past few years. Calhoun County EMS recently updated the ultrasound system on the ambulance to a newer, more efficient model. This new ultrasound system is more user friendly and may be used on any phone or tablet with the application installed. The use of an ultrasound allows EMS providers to assess the patient for free air and blood in the body's cavities. Personnel underwent special training in the use of ultrasound for rapid assessment of patients. The FAST (Focused Assessment with Sonography in Trauma) exam assesses 10 body structures in 4 main body areas to assess for blood, other fluids, and air which can all cause dysfunction in the body.

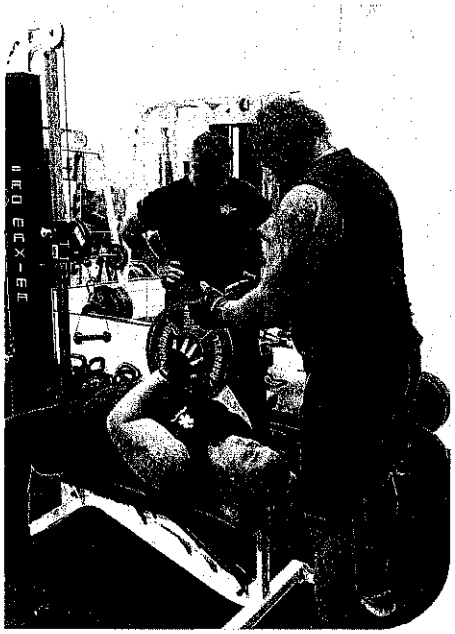


Early identification of these findings allows receiving hospitals to prepare appropriate medical and surgical staff to care for these patients.

By Jeremy Winton

FITNESS FOR LIFE: AN EMS STORY

Walk through the start of a call with me. You're sitting in your station, balancing a checkbook or checking on how much PTO you have, when the call comes in. I don't care how many years you've been doing this, the sound makes your heart pump a little faster and your senses kick up a notch or six. It's your sympathetic nervous system preparing you to do what you were born to do; fight or fly. The next hour or so of your life is going to be on a different level than it would be if you were still counting time off. It's important to be able to keep yourself focused and functioning, but it's also important to be able to address the impact that the next 60 minutes will have on you.



How can you do this day after day without losing your mind or getting hurt? There's no simple answer-no step by step process to get you through a shift. But if there is anything that a medic knows, it's training whether you're a new EMT or a seasoned paramedic. Training has been the difference between success and failure. The problem has become that while we constantly train and sharpen our skills to do the job, more often than not, our body and mental health takes a back seat. I truly believe that physical fitness is the beginning key to both mental and physical well-being and longevity injury free in EMS. The unfortunate thing is that EMS as a profession generally does not agree. On most occasions, if you ask someone if they want to work out or go for a walk you'll get laughable looks. If you tell them you're dieting or trying to eat right, there's a good chance someone will try to tempt you out of it with sweets or amazing food. It's definitely a struggle and does take its own mental fortitude. If you can fight to stay on track, you can find the secret to mental and physical success and stay on top of injury prevention.

Calhoun County EMS has taken a different stance when it comes to success in employees. CCEMS has made

major investments in providing training equipment to help train the body for fitness. The EMS gym has been upgraded every year since 2020 when I got here. As it has upgraded, so has the number of employees getting on board and wanting to begin their journey back to tip top health.

In 2021 EMS set up a dedicated room specifically for gym equipment. Staff installed the weights that were already available, but added a TV, internet, a speaker system for listening for calls so none go missed, and a full room of mirrors which every high-end gym must have. Also, a Director who is highly invested and ensures the members who use this new facility are being recognized, and top performers for each month are entered into Top User recognition at each month's meeting in front of all employees. Just by providing this private room for exercise, usage has steadily increased and overall moral seems to have followed.

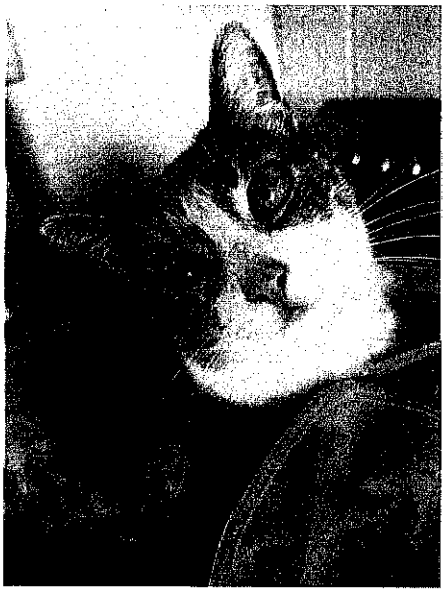
In 2022 CCEMS made a massive new investment into the gym. EMS was able to purchase a Smith machine with attached adjustable cable machine. This costing five thousand dollars has been another kick in the physical fitness movement for employees. On any given day you can find a several people in the gym working out at any given time. There are days, because of new equipment, that you can find entire shifts working out together-not only improving body fitness-but improving camaraderie in the shift. This definitely has a direct correlation to better morale. In a business that is mentally draining, having a solid core of employees bonding together only helps to improve readiness.

I feel like this fitness mindset has definitely had a snow ball effect, as more crew members have gotten involved. Employee based contests have encouraged employees to push each other towards individual greatness. This can only lead toward one thing –a service that is ready for anything no matter the call. I'm proud to call myself an employee of Calhoun County EMS because of the mental and physical improvement that I've been supported in by leadership.

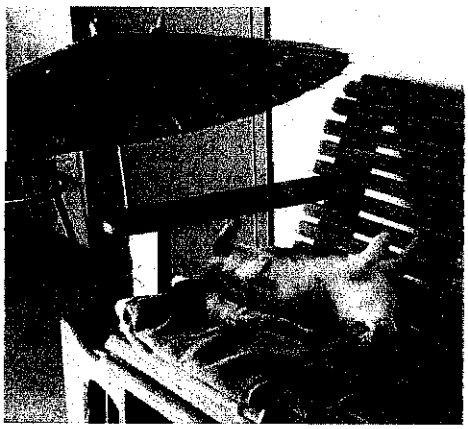
What does 2023 and beyond have in store for CCEMS? Well, that story is still to be written, but if I could have some sort of say in it, my hope is a continued push for a personal fitness mindset. I hope we can keep being able to acquire new equipment and keep pushing each other and being able to build relationships to keep our bond strong. If we can, I truly believe that we can successfully keep work place injuries, and mental health problems low, and employees at their best so they can continue to provide the best care in the state to the citizens of Calhoun county.

By Matt Hooten

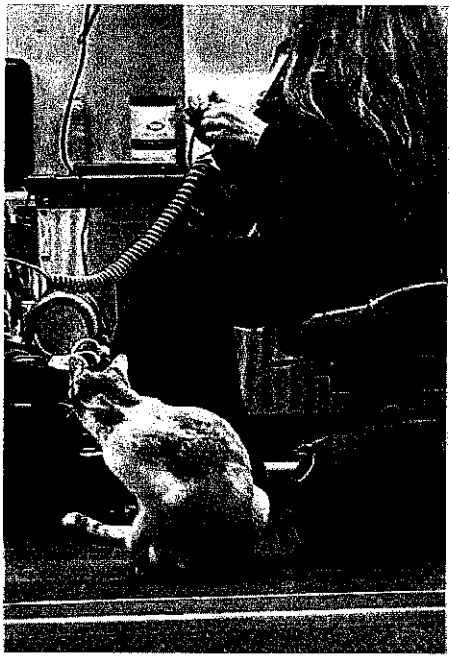
MATCHA



Matcha joined our department in August of 2022. We noticed her hiding around the station and parking lot for at least a week. We have a bench in our truck bay to sit when we have "down time". Matcha walked into our bay and sat close to the crew members sitting on the bench. She was friendly and loveable. With permission from our director, Matcha became our station cat. The employees of CCEMS have taken on the responsibility of buying her food and medical expenses.



Matcha has been microchipped and spayed. She is playful and loves the attention. Matcha is a very curious when everyone is in the bay doing truck checks. She even "helps" the maintenance crews work on the trucks. Matcha stays outside in the bay. She has her own corner where we keep her bed, toys, and food bowl.



She lets us know when she needs to be fed or wants her treats. Having Matcha here is therapeutic for our department. We have different ways of coping with the work we do, and Matcha has a part in the coping. Whether she lets us play with her, sit on the bench petting her, or seems like she is just listening to us talk, she has brought joy and fun to our department.

By Beverlie Ables

Department Awards

"Caught Being Exceptional" Awards

Each month at our Department Training Meeting, we give a "Caught Being Exceptional" Award. This recognizes those in the department that have put forth a little extra effort and have gone the extra mile.

January- Michael Werland	February- JRB Perez
March- Haley Owens	April- Jeremy Winton
May- Angie Gaona	June- Danny Munselle
July- Cesar Reyna	August- Erwin Silva
September- Maintenance Crew	October- Sylvia Acosta
November-Beverlie Ables	December- Zach Haring

2022 Employee of the Year

Cesar Reyna, EMT-B

Every year, Calhoun County EMS selects one outstanding member to receive the Employee of the Year award. This employee must exemplify our core characteristics and be dedicated to our mission. Nominations are taken at the end of the year and input is taken from the whole department. Their commitment to serving people must be recognized throughout Calhoun County. We look for someone who is truly an example for everyone to follow. When the nominations for the 2022 Calhoun County EMS Employee of the Year were gathered it was clear that everyone unanimously agreed Cesar not only represented these qualities, he has a heart that truly cares for others.

Re: CEPRA application for Port Alto Park

Commissioner Behrens,

I offer my services to prepare a 2023 CEPRA application for work to be done at Port Alto Park. I will prepare and submit the application to the General Land Office for $400.00.

Thank you for this consideration.

Kathy Smartt

NON-APPROPRIATION ADDENDUM

This is an addendum ("Addendum") to and part of that certain agreement between GreatAmerica Financial Services Corporation ("we", "us", "our") and Calhoun, County of ("Governmental Entity", "you", "your"), which agreement is identified in our records as agreement number 1852549 ("Agreement"). All capitalized terms used in this Addendum which are not defined herein shall have the meanings given to such terms in the Agreement.

APPLICABLE TO GOVERNMENTAL ENTITIES ONLY

You hereby represent and warrant to us that as of the date of the Agreement: (a) the individual who executed the Agreement had full power and authority to execute the Agreement on your behalf; (b) all required procedures necessary to make the Agreement a legal and binding obligation against you have been followed; (c) the Equipment will be operated and controlled by you and will be used for essential government purposes for the entire term of the Agreement; (d) that all payments due and payable for the current fiscal year are within the current budget and are within an available, unexhausted, and unencumbered appropriation; (e) you intend to pay all amounts payable under the terms of the Agreement when due, if funds are legally available to do so; (f) your obligations to remit amounts under the Agreement constitute a current expense and not a debt under applicable state law; (g) no provision of the Agreement constitutes a pledge of your tax or general revenues; and (h) you will comply with any applicable information reporting requirements of the tax code, which may include 8038-G or 8038-GC Information Returns. If funds are not appropriated to pay amounts due under the Agreement for any future fiscal period, you shall have the right to return the Equipment and terminate the Agreement on the last day of the fiscal period for which funds were available, without penalty or additional expense to you (other than the expense of returning the Equipment to the location designated by us), provided that at least thirty (30) days prior to the start of the fiscal period for which funds were not appropriated, your Chief Executive Officer (or Legal Counsel) delivers to us a certificate (or opinion) certifying that (a) you are a state or a fully constituted political subdivision or agency of the state in which you are located; (b) funds have not been appropriated for the applicable fiscal period to pay amounts due under the Agreement; (c) such non-appropriation did not result from any act or failure to act by you; and (d) you have exhausted all funds legally available for the payment of amounts due under the Agreement. You agree that this paragraph shall only apply if, and to the extent that, state law precludes you from entering into the Agreement if the Agreement constitutes a multi-year unconditional payment obligation. If and to the extent that the items financed under the Agreement is/are software, the above-referenced certificate shall also include certification that the software is no longer being used by you as of the termination date.

The undersigned, as a representative of the Governmental Entity, agrees that this Addendum is made a part of the Agreement.

1 Kyocera ECOSYS M6635cidn Copier

EQUIPMENT LOCATION: **As Stated Above** (*PLUS TAX)

TERM IN MONTHS: **63** MONTHLY PAYMENT AMOUNT*: **$65.03**

ADDITIONAL TERMS AND CONDITIONS

AGREEMENT. You want us to now pay your Vendor for the equipment and/or software referenced herein ("Equipment") and the amounts your Vendor included on the invoice to us for the Equipment for related installation, training, and/or implementation costs, and you unconditionally agree to pay us the amounts payable under the terms of this agreement ("Agreement") each period by the due date. This Agreement will begin on the date the Equipment is delivered to you or any later date we designate. We may charge you a one-time origination fee of $75.00. If we do not receive by the due date, at the remittance address indicated on your invoice, any amount payable to us, you will pay a late charge equal to: 1) the greater of ten (10) cents for each dollar overdue or twenty-six dollars ($26.00); or 2) the highest lawful charge, if less.

NET AGREEMENT. THIS AGREEMENT IS NON-CANCELABLE FOR THE ENTIRE AGREEMENT TERM. YOU UNDERSTAND WE ARE PAYING FOR THE EQUIPMENT BASED ON YOUR UNCONDITIONAL ACCEPTANCE OF IT AND YOUR PROMISE TO PAY US UNDER THE TERMS OF THIS AGREEMENT, WITHOUT SET-OFFS FOR ANY REASON, EVEN IF THE EQUIPMENT DOES NOT WORK OR IS DAMAGED, EVEN IF IT IS NOT YOUR FAULT.

EQUIPMENT USE. You will keep the Equipment in good working order, use it for business purposes only, and not modify or move it from its initial location without our consent. You must resolve any dispute you may have concerning the Equipment with the manufacturer or Vendor. Payments under this Agreement may include amounts you owe your Vendor under a separate arrangement (for maintenance, service, supplies, etc.), which amounts may be invoiced by us on your Vendor's behalf for your convenience.

SOFTWARE/DATA. Except as provided in this paragraph, references to "Equipment" include any software referenced above or installed on the Equipment. We do not own the software and cannot transfer any interest in it to you. We are not responsible for the software or the obligations of you or the licensor under any license agreement. You are solely responsible for protecting and removing any confidential data/images stored on the Equipment prior to its return for any reason.

NO WARRANTY. WE MAKE NO WARRANTIES, EXPRESS OR IMPLIED, INCLUDING WARRANTIES OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE. YOU HAVE ACCEPTED THE EQUIPMENT "AS-IS". YOU CHOSE THE EQUIPMENT, THE VENDOR AND ANY/ALL SERVICE PROVIDER(S) BASED ON YOUR JUDGMENT. YOU MAY CONTACT YOUR VENDOR FOR A STATEMENT OF THE WARRANTIES, IF ANY, THAT THE MANUFACTURER OR VENDOR IS PROVIDING. WE ASSIGN TO YOU ANY WARRANTIES GIVEN TO US.

ASSIGNMENT. You may not sell, assign or sublease the Equipment or this Agreement without our written consent. We may sell or assign this Agreement or our rights in the Equipment, in whole or in part, to a third party without notice to you. You agree that if we do so, the assignee will have our rights but will not be subject to any claim, defense, or set-off assertable against us or anyone else.

LAW/FORUM. This Agreement and any claim related to this Agreement will be governed by Iowa law. Any dispute will be adjudicated in a state or federal court located in Linn County, Iowa. You consent to personal jurisdiction and venue in such courts and waive transfer of venue. Each party waives any right to a jury trial.

LOSS OR DAMAGE. You are responsible for any damage to or loss of the Equipment. No such loss or damage will relieve you from your payment obligations hereunder. We are not responsible for, and you will indemnify us against, any claims, losses or damages, including attorney fees, in any way relating to the Equipment or data stored on it. This indemnity will survive the expiration of this Agreement. In no event will we be liable for any consequential or indirect damages.

INSURANCE. You agree to maintain commercial general liability insurance acceptable to us. You also agree to: 1) keep the Equipment fully insured against loss at its replacement cost, with us named as loss payee; and 2) provide proof of insurance satisfactory to us no later than 30 days following the commencement of this Agreement, and thereafter upon our written request. If you fail to maintain property loss insurance satisfactory to us and/or you fail to timely provide proof of such insurance, we have the option, but not the obligation, to secure property loss insurance on the Equipment from a carrier of our choosing in such forms and amounts as we deem reasonable to protect our interests. If we secure insurance on the Equipment, we will not name you as an insured party, your interests may not be fully protected, and you will reimburse us the premium which may be higher than the premium you would pay if you obtained insurance, and which may result in a profit to us through an investment in reinsurance. If you are current in all of your obligations under the Agreement at the time of loss, any insurance proceeds received will be applied, at our option, to repair or replace the Equipment, or to pay us the remaining payments due or to become due under this Agreement, plus our booked residual, both discounted at 3% per annum.

TAXES. We own the Equipment. You will pay when due, either directly or by reimbursing us, all taxes and fees relating to the Equipment and this Agreement. Sales or use tax due upfront will be payable over the term with a finance charge.

END OF TERM. At the end of the term of this Agreement (or any renewal term) (the "End Date"), this Agreement will renew month to month unless a) we receive written notice from you, at least 30 days prior to the End Date, of your intent to return the Equipment, and b) you timely return the Equipment to the location designated by us, at your expense. If the returned Equipment is not immediately available for use by another without need of repair, you will reimburse us for all repair costs. You cannot pay off this Agreement or return the Equipment prior to the End Date without our consent. If we consent, we may charge you, in addition to other amounts owed, an early termination fee equal to 5% of the amount we paid for the Equipment.

DEFAULT/REMEDIES. If a payment becomes 10+ days past due, or if you otherwise breach this Agreement, you will be in default, and we may require that you return the Equipment to us at your expense and pay us: 1) all past due amounts and 2) all remaining payments for the unexpired term, plus our booked residual, discounted at 3% per annum; and we may disable or repossess the Equipment and use all other legal remedies available to us. You agree to pay all costs and expenses (including reasonable attorney fees) we incur in any dispute with you related to this Agreement. You agree to pay us interest on all past due amounts at the rate of 1.5% per month, or at the highest rate allowed by applicable law, if less.

UCC. You agree that this Agreement is (and/or shall be treated as) a "Finance Lease" as that term is defined in Article 2A of the Uniform Commercial Code ("UCC"). You agree to forgo the rights and remedies provided under sections 507-522 of Article 2A of the UCC.

MISCELLANEOUS. This Agreement is the entire agreement between you and us relating to the Equipment and supersedes any prior representations or agreements, including any purchase orders. Amounts payable under this Agreement may include a profit to us. The parties agree that the original hereof for enforcement and perfection purposes, and the sole "record" constituting "chattel paper" under the UCC, is the paper copy hereof bearing (i) the original or a copy of either your manual signature or an electronically applied indication of your intent to enter into this Agreement, and (ii) our original manual signature. If any provision of this Agreement is unenforceable, the other provisions herein shall remain in full force and effect to the fullest extent permitted by law. Any change must be in writing signed by each party.

APPLICABLE TO GOVERNMENTAL ENTITIES ONLY

You hereby represent and warrant to us that as of the date of the Agreement: (a) the individual who executed the Agreement had full power and authority to execute the Agreement on your behalf; (b) all required procedures necessary to make the Agreement a legal and binding obligation against you have been followed; (c) the Equipment will be operated and controlled by you and will be used for essential government purposes for the entire term of the Agreement; (d) that all payments due and payable for the current fiscal year are within the current budget and are within an available, unexhausted, and unencumbered appropriation; (e) you intend to pay all amounts payable under the terms of the Agreement when due, if funds are legally available to do so; (f) your obligations to remit amounts under the Agreement constitute a current expense and not a debt under applicable state law; (g) no provision of the Agreement constitutes a pledge of your tax or general revenues; and (h) you will comply with any applicable information reporting requirements of the tax code, which may include 8038-G or 8038-GC Information Returns. If funds are not appropriated to pay amounts due under the Agreement for any future fiscal period, you shall have the right to return the Equipment and terminate the Agreement on the last day of the fiscal period for which funds were available, without penalty or additional expense to you (other than the expense of returning the Equipment to the location designated by us), provided that at least thirty (30) days prior to the start of the fiscal period for which funds were not appropriated, your Chief Executive Officer (or Legal Counsel) delivers to us a certificate (or opinion) certifying that (a) you are a state or a fully constituted political subdivision or agency of the state in which you are located; (b) funds have not been appropriated for the applicable fiscal period to pay amounts due under the Agreement; (c) such non-appropriation did not result from any act or failure to act by you; and (d) you have exhausted all funds legally available for the payment of amounts due under the Agreement. You agree that this paragraph shall only apply if, and to the extent that, state law precludes you from entering into the Agreement if the Agreement constitutes a multi-year unconditional payment obligation.

OWNER ("WE", "US", "OUR")

THIS AGREEMENT IS NON-CANCELABLE FOR THE FULL AGREEMENT TERM. THIS AGREEMENT IS BINDING WHEN WE EXECUTE THIS AGREEMENT AND PAY FOR THE EQUIPMENT.

Amendment

This Amendment amends that certain agreement by and between GreatAmerica Financial Services Corporation ("Owner") and Calhoun, County of ("Customer") which agreement is identified in the Owner's internal books and records as Agreement No. 1852549 (the "Agreement"). All capitalized terms used in this Amendment, which are not otherwise defined herein, shall have the meanings given to such terms in the Agreement. Owner and Customer have mutually agreed that the following modifications be made to the Agreement.

The Section entitled INSURANCE is hereby deleted in its entirety and replaced with the following:

"You Agree: (a) to keep the Equipment fully insured against loss at its replacement cost; and (b) to maintain comprehensive public liability insurance."

Except as specifically modified by this Amendment, all other terms and conditions of the Agreement remain in full force and effect. If, and to the extent there is a conflict between the terms of this Amendment and the terms of the Agreement, the terms of this Amendment shall control. A facsimile copy of this Amendment bearing authorized signatures may be treated as an original. This Amendment is not binding until accepted by Owner.

Description:

PAID OUT TO DISTRICT ATTY

I) Total Expenditures of Forfeited Funds During Reporting Period. This field will be auto-calculated once section VI has been completed and you save or switch sections.:	$18,681.79
J) Ending Balance - This field will be auto-calculated when you SAVE or switch sections.:	$40,799.47
I) Total Expenditure from Mailed Form:	
J) Ending Balance from Mailed Form:	

III. Other Property

Other Property

List the number of items seized for each category. Include only those seizures where a seizure is made by a peace officer employed by your agency. If property is sold, list under "Proceeds Received by Your Agency From Sale of Forfeited Property" in Section II (F) in the reporting year in which the proceeds are received. Please note - this should be a number not a currency amount. Example 4 cars seized, 3 cars forfeited and 0 cars put into use.

A) Motor Vehicles (Include cars, motorcycles, tractor trailers,etc.)

1) Seized:	1
2) Forfeited to Agency:	0
3) Returned to Defendants/Respondents:	0
4) Put into use by Agency:	0

B) Real Property (Count each parcel seized as one item)

1) Seized:	0
2) Forfeited to Agency:	0
3) Returned to Defendants/Respondents:	0
4) Put into use by Agency:	0

C) Computers (Include computer and attached system components, such as printers and monitors, as one item)

Please note - this should be a number not a currency amount. For example, 4 computers seized, 3 computers forfeited and 0 computers put into use.

1) Seized:	5
2) Forfeited to Agency:	0
3) Returned to Defendants/Respondents:	5
4) Put into use by Agency:	0

D) Firearms (Include only firearms seized for forfeiture under Chapter 59. Do not include weapons disposed under Chapter 18)

Please note - this should be a number not a currency amount. For example, 4 firearms seized, 3 firearms forfeited, 0 firearms put into use.

1) Seized:	12
2) Forfeited to Agency:	0
3) Returned to Defendants/Respondents:	12
4) Put into use by Agency:	0

E) Other Property

Please note - this should be a number not a currency amount.For example, 4 lots of tools seized, 3 lots of tools forfeited, 0 lots of tools put into use.

March 08, 2023

James Minze
Office of the Governor
1100 San Jacinto
Austin, TX 78701

Dear Mr. Minze:

Based on the Department of Homeland Security, Federal Emergency Management Agency's (FEMA) Operation Stonegarden Grant Program (OPSG) guidelines and special conditions associated with this program, the below referenced Operations Order as submitted is approved:

Operations Order No: 23-RGVRGV-12-004 V0
Fiscal Year: 2022
Amount Approved: $240,000
Operations Order Dates: 9/1/2022 to 8/31/2025
Sub-Recipient: Calhoun County, TX

Expenditures from the Operations Order (OPORD) that were reviewed and approved by FEMA and U.S. Customs and Border Protection/Border Patrol (CBP) are outlined below. These expenses will assist the County in conducting border centric, intelligence driven operations with the goal of reduction or elimination of threat, risk and vulnerability along our Nation's borders. Please see below for all approved costs for this OPORD, and refer to the OPORD for specific items.

Category	Amount
Overtime:	$117,109.00
Fringe:	$24,827.00
Equipment:	$74,724.00
Fuel:	$15,822.00
Maintenance:	$3,078.00
Mileage:	$0
Travel:	$0
County M&A:	$0
State M&A:	$4,440.00
Total	$240,000.00

Please find the below special conditions associated with OPSG and retain this letter for your grant files. If you have any questions, please feel free to contact me at (202) 786-0871.

Sincerely,

DAVID D PORTER

Grant Programs Directorate

Cc: U.S. Customs and Border Protection/ Border Patrol

The following Special Conditions are associated with this Operation Stonegarden award:

1. Construction and construction-type activities are prohibited.
2. Lethal or less than lethal forces including, but not limited to: weapons, firearms, ammunition and tasers are prohibited.
3. Per the *Personnel Reimbursement for Intelligence Cooperation and Enhancement (PRICE) of Homeland Security Act* (Public Law 110-412), the sum of all personnel related expenses shall not exceed 50% of the recipient's allocation without first obtaining a waiver from the FEMA Administrator.
4. All participating agencies shall monitor, review and track expenditures of OPSG funds under individual Operations Orders issued. Participating agencies shall not obligate, and/or encumber OPSG grant funds beyond the total of their allocation issued by FEMA.
5. The Operations Order has been reviewed and approved under the Environmental and Historic Preservation Program (EHP) guidelines as being categorically excluded from further EHP review.
6. Recipients must submit a letter of justification for all proposed vehicles or equipment items in excess of $100,000. This justification will be reviewed by CBP and FEMA.

(U) Warning: The information contained herein remains under the control of the Department of Homeland Security (DHS), through U.S. Customs and Border Protection (CBP). Dissemination is for authorized law enforcement purposes only.

(U) This document contains information that is UNCLASSIFIED//FOR OFFICIAL USE ONLY (U//FOUO). It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. § 552). It is to be controlled, stored, handled, transmitted, distributed, and disposed of in accordance with DHS policy relating to FOUO information and is not to be released to the public, the media, or other personnel who do not have a valid need-to-know without prior approval of an authorized CBP official.

(U) Privacy Act 5 U.S.C. § 552a(b) "No agency shall disclose any record which is contained in a system of records by any means of communication to any person, or to another agency, except pursuant to a written request by, or with the prior written consent of, the individual to whom the record pertains [subject to 12 exceptions]." OOs and OPSG Operational documents contain shared intelligence, information, targeted enforcement information, Personally Identifiable Information (PII) of USBP and partner State, Local, and Tribal law enforcement entities. PII should not be released as it places public safety officials in danger from illicit actors and shared intelligence and information should not be disclosed without notice and permission from the contributing law enforcement agencies."

Executive Summary

The Calhoun County Sheriff's Office (CCSO) has qualified and applied for funding through Operation Stonegarden. This agency has been identified as an integral part of the U.S. Border Patrol's strategy to enhance cooperation and coordination among Federal, State and Local agencies in a joint mission to secure the United States borders. Approved funding through Operation Stonegarden (OPSG) has been and will be used to enhance enforcement efforts along routes of ingress and coastal waterways. The county's participation will achieve border control by establishing a substantial probability of apprehension through improved enforcement, improved rapid mobility and intelligence driven resource deployments. Additionally, Calhoun County will involve a number of collaborators to assist in the stated mission of OPSG and will promote a collaborative enforcement effort that extends our border outward while strengthening a defense in depth posture.

I. SITUATION

A. General Situation:

Calhoun County is located within the area of responsibility of the Rio Grande Valley Sector, Corpus Christi Border patrol Station (RGV/CCT). The County's jurisdiction includes a number of ingress/egress routes that lead to and from immediate border area. Calhoun County is a coastal county on the mid-Texas coast where U.S. Highway 87 begins and the Guadalupe River ends. Calhoun County consists of 540 square miles, bordered with inlands bays and the Gulf of Mexico with more than 317 coastal miles. The county also has a 26 mile long Ship Chanel leading to a Port of Entry with an average of 23 ships movement a month averaging of 15 foreign flags ships a month. Port Lavaca, the county seat, is on Lavaca Bay. Point Comfort lies on the east side of Lavaca Bay. Seadrift is located on San Antonio Bay.

The unincorporated community of Port O'Connor is located on the Gulf Intracoastal Waterway. Easy access to the Gul via the Port O'Connor Jetties. Port Lavaca is 26 miles southeast of Victoria, 82 miles northeast of Corpus Christi, 127 miles southwest of Houston, 145 miles southeast of San Antonio, and 150 miles south-southeast of Austin, making for a short, easy drive from any of those locations for hundreds of families who have second homes here. The county's population of 21,000 sometimes doubles on some weekends such as July 4th and other large events like fishing tournaments. The Sheriff's Office is comprised of 25 commissioned Sheriff's Deputies.

Since its inception, the intent of OPSG has been to enhance law enforcement preparedness and operational readiness to enhance Border Patrols goals of securing our nation's borders. OPSG addresses not only the immediate border areas, but also the highly traveled transit areas utilized by TCO's to further advance their contraband into the United States. The Department of Homeland Security Appropriations Act, through the Homeland Security Grant Program allocates money for use by local units of government to increase coordination and enforcement capabilities in support of Department of Homeland Security (DHS) goals including those outlined in the Border Patrol Strategic Plan.

B. Terrain/Weather:

Terrain in and around Calhoun County is semi-arid flatland with low-lying vegetation. Elevation varies gradually in some areas with low-lying creek beds and depressions, bays and estuaries. Calhoun County is a coastal area which lies along the Gulf of Mexico. This area has been and will be affected by numerous tropical storms and hurricanes.

C. Criminal Element:

A number of individual, as well as organized criminal enterprises operate in and around Calhoun County, including loosely organized street gangs as well as major gangs such as the Mexican Mafia, Hermanos Pistoleros Latinos, the Aryan Brotherhood and others. The major thoroughfare is State Highway 35. It offers an immediate and direct route from Corpus Christi metropolitan areas to locations within the interior of the United States. This route provides direct access to Houston, Texas and many other interior cities in the United States. It is widely known that these cities serve as distribution locations for both human and narcotic smuggling loads. Additionally, intelligence information indicates that the coastal waterways in and around Calhoun county are experiencing an increase in smuggling activity.

This information is corroborated by an increased number of narcotics being found along the shorelines of various beaches from the Port Mansfield "Land Cut" to beaches located in Calhoun County. Information has been provided to the Calhoun County Sheriff's Office reporting the waterways are being used by some fishing guides and fishermen for the trafficking and selling of illegal narcotics.

D. Friendly Forces:

Federal:

U.S. Border Patrol, Corpus Christi Station (USBP)

Local:
Calhoun County Sheriff's Department

II. MISSION

The mission of the Calhoun County Sheriff's Office is to provide an enhanced enforcement capability within the roadways and along the waterways of Calhoun County and specific choke points in the County's jurisdiction that will substantially increase the probability of identification and/or apprehension of criminal elements operating within the same. Calhoun County Sheriff's Office will accomplish this mission by working with identified collaborators that include the U.S. Border Patrol and Texas Department of Public Safety.

Funding obtained through OPSG will be utilized to accomplish a high visibility enforcement presence that will detect, deter and/or interdict criminal and/or terrorist activity occurring in and/around Calhoun County and costal waterway areas. This will be accomplished through utilization of overtime as a force multiplier and acquisition of specialized equipment.

III. EXECUTION

A. Management/Supervisor Intent:

Participating OPSG law enforcement agencies will enforce local/state laws within their jurisdiction and will not enforce immigration laws (Title 8 USC) on behalf of Customs and Border Protection (CBP)/ United States Border Patrol (USBP). Each participating agency will conduct enforcement activities that have a nexus and contribute to border security as described in the "Specific Responsibilities" section of this plan.

Through collaboration with participating agencies, targeted areas of the County will increase the capability to prevent, protect against, and respond to border security issues. The collective collaboration of the participating agencies will provide an opportunity for intelligence based "Pulse and Surge" operations and further refinement of deployment strategies.

B. General Concept:

OPSG operational activities will emphasize those measures that increase border security in direct collaboration with CBP/USBP. Participating agencies will utilize their unique areas of expertise and jurisdictional authority to patrol targeted areas within the county and participate in special operations targeting border nexus crime. Border security threat and operational hours/activities will be determined jointly throughout the tactical period between the RGV Sector Unified Command Staff and the OPSG Integrated Planning Team (IPT). This operational concept does not result in a change or extension of federal authority to state or local law enforcement agencies to enforce Federal immigration laws (Title 8 USC). It is anticipated however, that increased enforcement activities under OPSG will significantly impact the ability of criminal organizations to operate within the Calhoun County area to reduce the threat of border incursions.

Participating agencies will utilize OPSG funding for overtime, fuel, or fuel for mileage, vehicle maintenance, and equipment in order to support enforcement operations as identified in the quarterly OPSG Operational Plan(s). If Federal immigration violations are encountered, state and local agencies may refer those violations to the Border Patrol for appropriate action consistent with current policies and practices. This plan is subject to approval by the Chief Patrol Agent Rio Grande Valley (RGV) Sector, Office of Border Patrol (OBP), and the Federal Emergency Management Administration (FEMA) prior to participation in OPSG operations.

Through OPSG approved funding, participating agencies will enhance their current deployment capabilities through expenditure of overtime and equipment acquisition. Deployment strategies will be adjusted based on intelligence information and historical data that supports the need for increased "Pulse and Surge" operations within certain areas of the County. Intelligence liaisons between the U.S. Border Patrol, Corpus Christi Station and the participating agencies, will facilitate the exchange of information to ensure resource deployments are consistent with current and developing intelligence information. The Operation will center its efforts around the prevention, detection and interdiction of crimes and criminals who have a border security nexus. Operation Stonegarden does not authorize extension of Federal authority to state or local law enforcement agencies to enforce Federal immigration laws. When Federal immigration violations are encountered, state and local agencies may refer those violations to the Border Patrol for appropriate action.

C **Specific Responsibilities:**

The Sheriff of Calhoun County will supervise and direct the operations of the operation and act as a liaison to any other neighboring jurisdictions law enforcement agency. The Calhoun County Sheriff's Office will continue to refer detained illegal border crossers to U.S. Border Patrol.

OPSG Sub-recipients and associated friendly forces will not enforce Title 8 (U.S. Immigration Law) nor will they be granted any additional authorities or powers to enforce immigration law. Sub-recipients and associated friendly forces will enforce state law and local municipality codes against violators in target areas to help reduce criminal activity associated with transnational criminal activity to increase border security.

Calhoun County:
Conduct enhanced uniformed patrol with an increased vigilance to potential terrorist activity. Disrupt the efforts of narco-trafficking and human trafficking organizations. Officers will contribute field contact reports to the U.S. Border Patrol Corpus Christi Station, as well as the Coastal Bend JOIC that detail information on persons encountered.

Our officers have received and will continue to receive advanced training regarding gang activity, human trafficking and drug interdiction. Also, working with agencies which patrol the waterways, including TP&W and the Texas Department of Public Safety Boat Patrol, will enhance our ability to aggressively pursue criminal activity in the coastal waters of Calhoun County.

Conduct Northbound and Southbound highway interdiction. Primary focus will be on persons illegally exporting firearms, bulk cash, stolen vehicles, or otherwise engaged in criminal activity. Officers will contribute field contact reports to the Coastal Bend JOIC and the U.S. Border Patrol Corpus Christi Station that detail information on persons encountered.

SH 35 and US 87 which run through Calhoun County are heavy traffic areas with unlimited potential for illegal smuggling of all sorts. State Highway 185, which runs through Calhoun County from Victoria County and ends in Port O'Connor, is also a high potential portal for illegal activity. Numerous Farm to Market Roads throughout the county are also potential alternate routes for subjects engage criminal activity wishing to avoid the major highways which pass through the diligent in searching for signs of illegal activity during traffic stops, interdiction efforts and License and Weight operations conducted on State Highway 35 northbound and southbound and the other roadways throughout the county.

With CCT concurrence, conduct undercover surveillance and investigation to support enforcement activity under the direction of CCSO narcotics investigators, who oversee much of Calhoun County's OPSG activities. Officers will work daytime and nighttime hours in order to avoid predictability, and will follow up on any intelligence information provided by cooperating agencies, anonymous tips or private citizens in order to take full advantage of the opportunity to increase law enforcement presence provided by Operation Stonegarden.

Border Patrol Responsibilities:

1. Station Point of Contact (POC) will get with station Command Staff and Intel department to identify areas that OPSG can be deployed.
2. Station OPSG coordinator will coordinate with friendly forces to create a deployment schedule.
3. When the Tactical Operation Center (TOC) supervisors receive a call from an OPSG friendly force officer, they should type in the deployment on Tracking, Sign-cutting, and Modeling (TSM) in order to track the deployments. Annotate the following information:
   a. Officer name
   b. Officer number
   c. Area WC deployed officer or designee
   d. WC star number or designee
   e. Requests For Information (RFIs)
4. Station POCs should use TSM to validate the submitted DARs in the OPSG Website.

Friendly Force Responsibilities:

1. Each friendly force will identify how many officers will be available to work Operation Stonegarden (OPSG), what days and what time they will be available.
2. Each friendly force will contact their respective Station Point of Contact (POC) to create a schedule.
3. When an officer is scheduled to begin working using OPSG funds he/she **must** call their respective Border Patrol Station Tactical Operation Center (TOC) to receive work assignment and any relevant intelligence information **from the on duty Watch Commander (WC) or designee.**
4. The officer should write down the agent's star number to include in his or her report.
5. At the end of the officer's shift under OPSG, he/she will call the Border Patrol TOC in order to inform them he/she is no longer operating under OPSG.

6. **Each officer should write a brief narrative to be included in the OPSG Daily Activity Report (DAR), which is submitted through the Homeland Security Information Network (HISN).**

   The narrative should include:

   i. The Star number of the agent he/she spoke with at the Border Patrol Station TOC
   ii. A summary of what he/she did during operating under OPSG
   iii. Answer any informational questions the Border Patrol might have been requested

7. If submitting one DAR for multiple officers then you can consolidate the narratives onto one (1) document and attach to the DAR
8. The sub-recipient (The County) may set additional reporting requirements for participating friendly forces.

D. Coordinating Instructions:

The Calhoun County Sheriff's Office, local Friendly Forces/Law Enforcement Agencies, and the CBP Rio Grande Valley Sector Stations will coordinate Stonegarden related enforcement activities within their respective AORs. The RGV Sector Office of Intelligence will coordinate the establishment of performance measures and the collection, analysis and dissemination of intelligence with state and local counterparts.

OPSG enhancements will be utilized in direct response to known or developing intelligence information provided through liaison with the Corpus Christi Border Patrol Station. Deployment areas identified within this plan are subject to adjustment based on jurisdictional limitations and the nature of the actionable intelligence information received.

The Corpus Christi Border Patrol Station will coordinate with the Rio Grande Valley Sector's Operations Center to establish a statistical tracking method that will be used for performance evaluations and future resource allocations or adjustments to established plans.

Plans for adjustment of allocations or major deviations from the established deployment strategies will be coordinated through the Calhoun County Sheriff's Office and the Corpus Christi Border Patrol Station along with a representative of the affected adjustment area. A Stonegarden specific overtime work schedule from each department will be submitted via email or fax to the respective CBP station for situational awareness. As required by FEMA, an end of the month report will also be turned in to CBP for accounting and statistical purposes. Rio Grande Valley Border Patrol Sector Chief Patrol Agent will have operational oversight and in coordination/collaboration with OPSG stakeholders, will determine which areas will be the focus of operations.

SLTTs will submit a DAR within 48hrs. Sector Coordinators/Station POCs will approve DARs within a timely manner.

Points of Contact:

USBP Corpus Christi:

E. Public/Open Records Request:

In order to accomplish the Operation Stonegarden mission, law enforcement sensitive information is shared between Federal, State, and local friendly forces. This information includes: intelligence sharing, CONOPS/Applications, Operations Orders, Fragmentary Orders, Daily Activity Reports, After Action Reports, and more. OPSG records and documents are Law Enforcement Sensitive and are to be secured by all parties involved in OPSG operations from release of data or information to individuals or entities without a legally sufficient need to know.

OPSG documents, data, and information must also be protected from inadvertent or improper distribution.

State Administrative Agencies, Sub-Recipients, and Friendly Forces should while maintaining state and local policy also notify their local USBP Sectors Staff when a Public disclosure request is received. USBP Sector Staff will notify the appropriate USBP HQ Staff about the request for awareness. USBP HQ will provide applicable assistance to insure the appropriate handling of the request to insure maximum protection of Personally Identifiable Information (PII) and Operations Security (OPSEC) of OPSG documents, data, and information.

Internet Services and Transport
2022-2023

Calhoun County Public Library

Port O'Connor

March 2023

Dina Sanchez
Calhoun County Library Director
dsanchez@cclibrary.org

Dear Ms. Sanchez:

Infinium, Victoria Electric Cooperative's Broadband division, submits the enclosed proposal for Calhoun County Public Library in response to your Form 470 for Category 1 services for Internet Access and Transport Only services.

Infinium respectfully submits this response that continues the current agreement of providing minimum internet service of 100 Mbps/5Mbps and a dedicated IP address to the Port O'Connor Public Library demarcation to the Infinium Internet Point of Presence (POP) the Victoria Electric Cooperative Data Center facility.

By providing this service, we strive to continue to build the foundation for connectivity for the Calhoun County Port O'Connor library and allows Infinium to bring advanced Broadband and 24/7 digital learning opportunities to our communities.

Infinium understands and believes in the importance of Broadband for our communities and students' learning and living in a digital society. Just as VEC brought electricity to schools and students in the 1930s, we will continue to work with the Public Library to have advanced, fiber-based connectivity and high-speed, cost-effective Internet and expertise in your community.

Although Fiber networks and the Internet are a new utility VEC brings members and communities, we have an 80-year proven track record of delivering mission-critical services to get to our members and communities. VEC is investing in technology and industry experts to develop and deliver these services at the highest level of infrastructure and the highest level of product and fiber speed/access to implement our Broadband services.

We're excited to continue our relationship with you, and we look forward to working together on this vital project.

Sincerely,

Jessica L Gray

Victoria Electric Cooperative
Chief Financial Officer

Calhoun County Public Library

Port O'Connor

Victoria Electric Cooperative (VEC) was founded in 1938 by community members to bring safe, reliable and affordable electricity to improve their quality of life. As a result of this commitment to those principles and the Cooperative business model's extraordinary success, the membership of VEC has asked that VEC provide broadband internet to those same communities.

VEC is proud to introduce its broadband internet division, Infinium. Infinium is committed to providing members, non-members, schools, students, and businesses; the same broadband experience and services available in metro American homes, schools, and businesses with the same expertise, commitment, and service that we have provided for the last 81 years.

VEC's Infinium division has already assisted Bloomington ISD, Calhoun County ISD, and Industrial ISD with WAN and Internet transport and Internet services.

Infinium is committed to following our electric cooperative founders' footsteps by improving the quality of life in the communities that we serve. While it began with electricity, today, it is access to information and resources by connecting people worldwide to collaborate, engage, and remove the obstacles preventing them from obtaining their dreams.

Infinium has been providing alternative service options for requested services by Calhoun County ISD and is contracted through June 30, 2024.

Internet Access: Lit Transport

Monthly Recurring Charge – 500Mbps/500Mbps with a dedicated IP Address	**$119.99**

Infinium will work with Calhoun County Public Libraries, the Federal E-Rate Program Category 1 Funding Process and the State of Texas Classroom Connectivity Initiative programs to support this initiative. Furthermore, Infinium will support efforts to extend the ERATE state matching funds, by working with our legislators and fellow members of the Schools, Hospitals and Libraries Board and Coalition (SHLB) to ensure anchor institutions have access to affordable, reliable broadband.

Infinium Broadband Internet Agreement for Internet Services for Calhoun County Port O'Connor Public Library

Customer agrees to pay the monthly recurring charges (MRC) for Service. Fees do not include applicable taxes (If any), shipping charges (If any), of which shall be billed in addition to the Fees and shall be the responsibility of the Customer.

Monthly Recurring Cost Customer will remit $119.00 for 500 Mbps/500 Mbps and a dedicated IP Address as contracted on the order form through June 30, 2024. If the Port O'Connor Public Library exceeds (burst) above the contracted amount, Infinium will notify the district of the overage and the amount of the overage.

Upon two consecutive overage months, Infinium will provide an increase in bandwidth change order with the option to pay actuals or contract for additional committed bandwidth. Calhoun County Library may request additional bandwidth and will be billed with the defined MRC as listed.

All services performed under this Service Order are subject to the terms of the RFP Agreement between Infinium and Customer.

Service Location (from Table 1): **select**	Select	
Subtotal:	**$ 0.00**	**$ 0.00**

1. Service Description.

a. **Dedicated Internet Access ("DIA")** DIA is a dedicated bandwidth from Customer Service Location to the Frontier IP network then to the public Internet which provides reliable, secure and scalable bandwidth. Physical termination shall conform to applicable rules and regulations with respect to Minimum point of entry (MPOE) and demarcation point. If Customer requests extensions beyond the MPOE, such extension (s) shall be subject to Frontier's cabling service policies and Frontier's charges related thereto per separate Frontier Cabling Service and Fee Schedule.

2. Pre-installation cancellation fees, FOC Notice and Special Construction.

(a) **Pre-installation cancellation fees.** Notwithstanding any provision of the FSA: (1) If Customer cancels any Service or Equipment prior to delivery of any Equipment or installation of the Service or Equipment, Customer shall pay a processing fee of $750 (the "Processing Fee") and (2) Frontier will provide Customer with notice (the "FOC Notice") of the project completion date (the "FOC Date") as soon as possible in light of the requested services and customer's location. If Customer cancels more than ten (10) business days after the issuance of the FOC Notice, Customer shall pay the Processing Fee and the total costs and expenditures of Frontier in connection with establishing the Service and / or

providing the Equipment prior to Frontier's receipt of notice of cancellation including but not limited to any construction and engineering costs and Equipment restocking fees.

(b) Special Construction: All Services are subject to availability and Frontier Network limitations. The rates identified in this Schedule are estimated based on standard installation costs and Services may not be available at all service locations at the rates identified. If Frontier determines, in its reasonable discretion, that the costs of provisioning Service to any service location are materially higher than normal, Frontier will notify Customer of the additional costs associated with provision of the Services and request Customer's acceptance of such costs as a condition to proceeding ("Special Construction"). Upon notification that Special Construction is required, Customer will have ten (10) business days to notify Frontier of its acceptance. If the Customer does not agree to the Special Construction within ten (10) business days, the Customer shall be deemed to have cancelled the Service Schedule without further liability. If the Customer agrees to the Special Construction, Frontier and Customer will execute a replacement Schedule. Notwithstanding the foregoing, Customer shall not be required to pay construction, engineering and Processing Fees if the cancellation is within ten (10) business days of receipt of Frontier's notification of additional special construction and engineering costs pursuant to this Service Schedule.

3. **Obligations of Customer.** Customer is responsible to ensure appropriate processes and protocols are in place for rate shaping to the amount of throughput ordered. Customer acknowledges that failure to comply with this responsibility may negatively impact Service performance.

4. **After Hours/Holiday Labor Hours.** If Customer desires coordinated turn up services ("After Hours") during non-business hours, defined below, then the After Hours services shall be provided at the rate of $175.00 per hour. Non-business hours include: (1) weeknights between the hours of 5:00 p.m. and 7:59 a.m. local time; (2) weekends, including Saturday and/or Sunday and (3) the Frontier designated holidays (New Year's Day, Martin Luther King Day, President's Day, Memorial Day, Independence Day, Labor Day, Veteran's Day, Thanksgiving Day and Christmas Day).

Such After Hours services may be subject to change, based upon Frontier's reasonable determination of increases in actual costs to provide such After Hours services, determined in accordance with generally accepted commercial accounting practices, and consistent with After Hours service charges for projects comparable to the project outlined in this Schedule

5. **Internet Acceptable Use Policy and Security.** Customer shall comply, and shall cause all Service users to comply, with Frontier's Acceptable Use Policy (**"AUP"**), which Frontier may modify at any time. The current AUP is available for review at the following address, subject to change: http://www.frontier.com/policies/commercial_aup/. Customer is responsible for maintaining awareness of the current AUP and adhering to the AUP as it may be amended from time to time. Failure to comply with the AUP is grounds for immediate suspension or termination of Frontier Internet Service, notwithstanding any notice requirement provisions of the FSA. Customer is responsible for the security of its own networks, equipment, hardware, software and software applications. Abuse that occurs as a result of Customer's systems or account being compromised or as a result of activities of third parties permitted by Customer may result in suspension of Customer's accounts or Internet access by Frontier. Customer will defend and indemnify Frontier and its affiliates with respect to claims arising from Customer's or third parties' usage of Frontier Internet access through Customer's hardware or software.

6. **Service Level Agreement.** The Dedicated Internet Access Service Level Agreement for Dedicated Internet Access is attached hereto and incorporated herein as Exhibit 1.

This Schedule is not effective, and pricing, dates and terms are subject to change until signed by both parties. This Schedule and any of the provisions hereof may not be modified in any manner except by mutual written agreement. The above rates do not include any taxes, fees or surcharges applicable to the Service. This Schedule, and all terms and conditions of the FSA, is the entire agreement between the parties with respect to the Services described herein, and supersedes any and all prior or contemporaneous agreements, representations, statements, negotiations, and undertakings written or oral with respect to the subject matter hereof.

EXHIBIT 1
Service Level Agreement

This Dedicated Internet Access Service Level A Agreement ("SLA") applies to an Dedicated Internet Access (DIA) Schedule, executed by and between **Calhoun County Public Library** ("Customer") and **Frontier Communications of America, Inc.** ("Frontier"). The terms of this SLA apply exclusively to the Dedicated network elements directly within Frontier's management responsibility and control ("On-Net Service").

1. **Operational Objectives**

   A. **Availability:** Circuit Availability is the ability to exchange data packets with the nearest Frontier Internet Point of Presence ("POP") or DIA Customer egress port (Z location) via the ingress port (A location). "Service Outage" occurs when packet transport is unavailable or when the output signal is outside the limits of this service guarantee. Availability is measured by the number of minutes during a calendar month that the On-Net Service is operational, divided by the total minutes in that calendar month. Calculation is based on the stop-clock method beginning at the date and time of the Customer-initiated trouble ticket and ends when Frontier restores SLA-compliant circuit operation. Frontier's On-Net Service Availability commitment and applicable Service credit are outlined in **Table 1A**, subject to Sections 3 and 4 below.

Table 1A: Dedicated Internet Access		
Circuit Availability (CA)		**MRC Service Credit**
Availability	**99.99%**	Below 99.99% Service Credit 30% MRC

   B. **Mean Time to Repair (MTTR)**: MTTR is a monthly calculation of the average duration of time between Trouble Ticket initiation (in accordance with Section 2B) and Frontier's reinstatement of the DIA Service to meet the Availability performance objective. The MTTR objectives, and credits applicable to a failure to meet such objectives, are outlined in **Table 1B**, subject to Sections 3 and 4 below.

Table 1B: Dedicated Internet Access		
Mean Time To Repair		**MRC Service Credit**
MTTR	**4 Hours**	25 % MRC above 4 hrs
		50% MRC above 6 hrs.

   C. To the extent applicable, the Customer is entitled to one Service Credit per Service Outage (i.e. for either the higher of Circuit Availability credit or Mean Time to Repair credit, if applicable). If applicable, the On-Time Provisioning credit would be in addition to the Service Outage credit.

2. **Service Outage Reporting Procedure.**

   A. Frontier will maintain a point-of-contact for Customer to report a Service Outage, twenty-four (24) hours a day, seven (7) days a week.

   B. When DIA Service is impacted from a Service Outage, Customer must contact Frontier's commercial customer support center (also known as the "NOC") at 1-(888) 637-9620 to identify the Service Outage and initiate an investigation of the cause ("Trouble Ticket"). Responsibility for Trouble Ticket initiation rests solely with Customer. Once the Trouble Ticket has been opened, the appropriate Frontier departments will initiate diagnostic testing and isolation activities to determine the source. In the event of a Service Outage, Frontier and Customer will cooperate to restore the Service. If the cause of a Service Outage is a failure of Frontier's equipment or facilities, Frontier will be responsible for the repair. If the degradation is caused by a factor outside the control of Frontier, Frontier will cooperate with Customer to conduct testing and repair activities at Customer's cost and at Frontier's standard technician rates.

   C. A Service Outage begins when a Trouble Ticket is initiated and ends when the affected DIA Service is Available; provided that if the Customer reports a problem with a Service but declines to allow Frontier access for testing and repair, the Service will be considered to be impaired, but will not be deemed a Service Outage subject to these terms.

   D. If Frontier dispatches a field technician to perform diagnostic troubleshooting and the failure was caused by the acts or omissions of Customer or its employees, affiliates, contractors, agents, representatives or invitees; then Customer will pay Frontier for all related time and material costs at Frontier's standard rates.

3. **Credit Request and Eligibility.**

   A. In the event of a Service Outage, Customer may be entitled to a credit against the applicable DIA Service MRC if (i) Customer initiated a Trouble Ticket; (ii) the Service Outage was caused by a failure of Frontier's equipment, facilities or personnel; (iii) the Service Outage

warrants a credit based on the terms of Section 1; and (iv) Customer requests the credit within thirty (30) days of last day of the calendar month in which the Service Outage occurred.

B. Credits do not apply to Service Outages caused, in whole or in part, by one or more of the following: (i) the acts or omissions of Customer or its employees, affiliates, contractors, agents, representatives or invitees; (ii) failure of power; (iii) the failure or malfunction of non-Frontier equipment or systems; (iv) circumstances or causes beyond the control of Frontier or its representatives; (v) a Planned Service Interruption; (vi) Emergency Maintenance or (vii) interruptions resulting form Force Majeure events as defined in Customer's FSA . In addition, Customer will not be issued credits for a Service Outage during any period in which Frontier is not provided with access to the Service location or any Frontier network element, or while Customer is testing and/or verifying that the problem has been resolved. "Planned Service Interruption" means any Service Outage caused by scheduled maintenance, planned enhancements or upgrades to the Frontier network; provided that Frontier will endeavor to provide at least five (5) business days' notice prior to any such activity if it will impact the Services provided to Customer. "Emergency Maintenance" means maintenance which, if not performed promptly, could result in a serious degradation or loss of service over the Frontier network.

C. Notwithstanding anything to the contrary, all credit allowances will be limited to maximum of 50% of the MRC for the impacted DIA Service, per month. For cascading failures, only the primary or causal failure is used in determining Service Outage and associated consequences. Only one service level component metric can be used for determining Service credits. In the event of the failure of the Service to meet multiple metrics in a one-month period, the highest Service credit will apply, not the sum of multiple Service credits. For example, if Customer's Service Outage triggers both operational objectives (i.e. Circuit Availability and Mean Time to Repair), Customer will receive the highest available Service Credit, but not both.

D. This SLA guarantees service performance of Frontier's Dedicated Internet Access services only. This SLA does not cover TDM services [DS1, NxDS1, or DS3 services] or other voice or data services provided by Frontier. This SLA does not apply to services provided over third party non-partner facilities, through a carrier hotel, or over Frontier facilities which terminate through a meet point circuit with a third party non-partner carrier.

E. The final determination of whether Frontier has or has not met SLA metrics will be based on Frontier's methodology for assessment of compliant performance. Service Outage credits are calculated based on the duration of the Service Outage, regardless of whether such Service Outage is the result of failure of the Service to meet one or more performance metric.

F. Credit allowances, if any, will be deducted from the charges payable by Customer hereunder and will be expressly indicated on a subsequent bill to Customer. Credits provided pursuant to this SLA shall be Customer's sole remedy with regard to Service Outages.

4. **Chronic Outage:** An individual DIA Service qualifies for "Chronic Outage" status if such service fails to meet the Availability objectives, and one or more of the following: (a) a single Trouble Ticket extends for longer than 24 hours, (b) more than 3 Trouble Tickets extend for more than 8 hours, during a rolling 6 month period, or (c) 15 separate Trouble Tickets of any duration within a calendar month. If an DIA Service reaches Chronic Outage status, then Customer may terminate the affected DIA Service without penalty; provided that Customer must exercise such right within ten (10) days of the DIA Service reaching Chronic Outage status and provide a minimum of 15 days prior written notice to Frontier of the intent to exercise such termination right.
